原標題: 4 AI Agents To Automate 99% Of Your Life

來源：YouTube 三份 auto caption (en, zh-Hans, zh-Hant) — 直接下載成功，無需 STT fallback

英 (English, clean)

Four AI agents you can build today that
Four AI agents you can build today that will save you hours of work every week.
will save you hours of work every week.
will save you hours of work every week. You don't need any technical skills. If
You don't need any technical skills. If
You don't need any technical skills. If you can type, you can build them and
you can type, you can build them and
you can type, you can build them and start using them today. We'll do it
start using them today. We'll do it
start using them today. We'll do it together step by step. For those who are
together step by step. For those who are
together step by step. For those who are new here, I spent more than 20 years as
new here, I spent more than 20 years as
new here, I spent more than 20 years as a CEO, board member, and investor in
a CEO, board member, and investor in
a CEO, board member, and investor in tech and AI companies. And I use these
tech and AI companies. And I use these
tech and AI companies. And I use these agents in my work every day. They're
agents in my work every day. They're
agents in my work every day. They're gamechanging. But the agents are the
gamechanging. But the agents are the
gamechanging. But the agents are the easy part. You want to learn not just
easy part. You want to learn not just
easy part. You want to learn not just the tools but the way of thinking or the
the tools but the way of thinking or the
the tools but the way of thinking or the system that changes how you work with AI
system that changes how you work with AI
system that changes how you work with AI agents forever. And that system works on
agents forever. And that system works on
agents forever. And that system works on any AI claw, Gemini, Chad, JPT, you
any AI claw, Gemini, Chad, JPT, you
any AI claw, Gemini, Chad, JPT, you pick. We're going to build four agents
pick. We're going to build four agents
pick. We're going to build four agents around four pillars. I call it four C's
around four pillars. I call it four C's
around four pillars. I call it four C's framework. Coordination, creativity,
framework. Coordination, creativity,
framework. Coordination, creativity, clarity, and coaching. Each of these
clarity, and coaching. Each of these
clarity, and coaching. Each of these pillars make your life less chaotic and

pillars make your life less chaotic and
pillars make your life less chaotic and more productive. So, let's get to the
more productive. So, let's get to the
more productive. So, let's get to the first pillar. The first C is
first pillar. The first C is
first pillar. The first C is coordination because before anything
coordination because before anything
coordination because before anything else, AI should stop your day from
else, AI should stop your day from
else, AI should stop your day from getting hijacked. Microsoft studied how
getting hijacked. Microsoft studied how
getting hijacked. Microsoft studied how we actually work and the numbers are
we actually work and the numbers are
we actually work and the numbers are brutal. The average worker gets 117
brutal. The average worker gets 117
brutal. The average worker gets 117 emails a day, and we're interrupted
emails a day, and we're interrupted
emails a day, and we're interrupted every 2 minutes by an email or a meeting
every 2 minutes by an email or a meeting
every 2 minutes by an email or a meeting or a message. That's 275
or a message. That's 275
or a message. That's 275 times a day. And by the way, none of
times a day. And by the way, none of
times a day. And by the way, none of that counts the social media
that counts the social media
that counts the social media interruptions. Our attention gets
interruptions. Our attention gets
interruptions. Our attention gets chopped into pieces every day. So, let's
chopped into pieces every day. So, let's
chopped into pieces every day. So, let's build a coordination agent that reads
build a coordination agent that reads
build a coordination agent that reads your inbox, checks the calendar, plans
your inbox, checks the calendar, plans
your inbox, checks the calendar, plans your day, and gives you the time and
your day, and gives you the time and
your day, and gives you the time and attention back. We will start by
attention back. We will start by
attention back. We will start by building the email agent first, and then
building the email agent first, and then
building the email agent first, and then we'll add the calendar right after. For
we'll add the calendar right after. For
we'll add the calendar right after. For this walkthrough, I'm using Claude
this walkthrough, I'm using Claude
this walkthrough, I'm using Claude Co-work. Chat is where you ask
Co-work. Chat is where you ask
Co-work. Chat is where you ask questions. Co-work is where you assign
questions. Co-work is where you assign
questions. Co-work is where you assign work. But don't get hung up on the
work. But don't get hung up on the
work. But don't get hung up on the interface. If you use chat GPT or Gemini

interface. If you use chat GPT or Gemini interface. If you use chat GPT or Gemini or any other agent tool, the same or any other agent tool, the same principles will work. The buttons will principles will work. The buttons will change, the workflow will not. So, okay, change, the workflow will not. So, okay, here's the Claude app. You can select here's the Claude app. You can select the mode, whether you want to be in a the mode, whether you want to be in a chat tab or a co-work tab. Select chat tab or a co-work tab. Select co-work. And it switches you into tasks. co-work. And it switches you into tasks. That's where we will build agents. Now, That's where we will build agents. Now, That's where we will build agents. Now, we want to think about email. So, the we want to think about email. So, the first thing we're going to do is connect first thing we're going to do is connect Gmail so the agent can reach and access Gmail so the agent can reach and access your inbox. You do this from the plus your inbox. You do this from the plus menu, connectors, add connectors, menu, connectors, add connectors, browse, then select. And browse, then select. And congratulations, this is your first leap congratulations, this is your first leap from chatbot to agent. Once Gmail is from chatbot to agent. Once Gmail is connected, you no longer have to copy connected, you no longer have to copy emails into your chat. You can say, emails into your chat. You can say, "Summarize my unread emails from "Summarize my unread emails from yesterday." and the agent knows where to yesterday." and the agent knows where to go and what to do. And by the way, if go and what to do. And by the way, if you're little uneasy about letting AI you're little uneasy about letting AI into your inbox, that's a good sign. into your inbox, that's a good sign. Trust your hesitation. When you connect Trust your hesitation. When you connect Gmail, Google shows you exactly what

Gmail, Google shows you exactly what
Gmail, Google shows you exactly what permissions you're giving it. Read it.
permissions you're giving it. Read it.
permissions you're giving it. Read it. Don't click through it blindly. For the
Don't click through it blindly. For the
Don't click through it blindly. For the first demo, I want the agent to read and
first demo, I want the agent to read and
first demo, I want the agent to read and draft emails, not send them. Now, we
draft emails, not send them. Now, we
draft emails, not send them. Now, we write the prompt. same plain English you
write the prompt. same plain English you
write the prompt. same plain English you would type in chat. The difference is
would type in chat. The difference is
would type in chat. The difference is that now you're handing it a job. The
that now you're handing it a job. The
that now you're handing it a job. The prompt has five parts. The job, the
prompt has five parts. The job, the
prompt has five parts. The job, the tool, the categories, the output, and
tool, the categories, the output, and
tool, the categories, the output, and the boundary. You could say something
the boundary. You could say something
the boundary. You could say something like, "Review my unread Gmail from the
like, "Review my unread Gmail from the
like, "Review my unread Gmail from the last 24 hours. Sort it into three
last 24 hours. Sort it into three
last 24 hours. Sort it into three buckets: urgent, informational, and
buckets: urgent, informational, and
buckets: urgent, informational, and ignore." For anything urgent, draft a
ignore." For anything urgent, draft a
ignore." For anything urgent, draft a reply that sounds like me. Don't send
reply that sounds like me. Don't send
reply that sounds like me. Don't send anything without my approval. Notice the
anything without my approval. Notice the
anything without my approval. Notice the five parts in that one sentence. The
five parts in that one sentence. The
five parts in that one sentence. The job, the tool, the buckets, the output,
job, the tool, the buckets, the output,
job, the tool, the buckets, the output, and the boundary. Now underneath, every
and the boundary. Now underneath, every
and the boundary. Now underneath, every agent runs the same loop. It reasons, it
agent runs the same loop. It reasons, it
agent runs the same loop. It reasons, it acts, it looks at the output and reasons
acts, it looks at the output and reasons
acts, it looks at the output and reasons again. Researchers have a name for it.
again. Researchers have a name for it.
again. Researchers have a name for it. React. Reason and act. But email is only
React. Reason and act. But email is only
React. Reason and act. But email is only half of our coordination agent. Correct.
half of our coordination agent. Correct.
half of our coordination agent. Correct. Once we've used the email agent for a

Once we've used the email agent for a
Once we've used the email agent for a few days or maybe even a few weeks,
few days or maybe even a few weeks,
few days or maybe even a few weeks, we're getting comfortable now. We're
we're getting comfortable now. We're
we're getting comfortable now. We're ready to add the second coordination
ready to add the second coordination
ready to add the second coordination layer, calendar. Now for the walk
layer, calendar. Now for the walk
layer, calendar. Now for the walk through, same path as Gmail. Plus menu,
through, same path as Gmail. Plus menu,
through, same path as Gmail. Plus menu, connectors, add connectors. This time,
connectors, add connectors. This time,
connectors, add connectors. This time, select Google calendar to connect to
select Google calendar to connect to
select Google calendar to connect to Google Calendar. Again, I'm not giving
Google Calendar. Again, I'm not giving
Google Calendar. Again, I'm not giving the agent permission to move meetings or
the agent permission to move meetings or
the agent permission to move meetings or change my day without my approval, at
change my day without my approval, at
change my day without my approval, at least in the beginning. Here's what I
least in the beginning. Here's what I
least in the beginning. Here's what I would prompt. Look at my Google calendar
would prompt. Look at my Google calendar
would prompt. Look at my Google calendar for today and tomorrow. Compare it
for today and tomorrow. Compare it
for today and tomorrow. Compare it against all the urgent emails that you
against all the urgent emails that you
against all the urgent emails that you found. Organize my day by telling me
found. Organize my day by telling me
found. Organize my day by telling me what creates conflict in my schedule,
what creates conflict in my schedule,
what creates conflict in my schedule, what needs an action or prep before a
what needs an action or prep before a
what needs an action or prep before a meeting, and what can wait. This is the
meeting, and what can wait. This is the
meeting, and what can wait. This is the moment the email and calendar start
moment the email and calendar start
moment the email and calendar start collaborating with each other. Now the
collaborating with each other. Now the
collaborating with each other. Now the agent starts helping me shape my day.
agent starts helping me shape my day.
agent starts helping me shape my day. Once I run both these email and calendar
Once I run both these email and calendar
Once I run both these email and calendar versions a few times and I trust both
versions a few times and I trust both
versions a few times and I trust both outputs, I can schedule the full
outputs, I can schedule the full
outputs, I can schedule the full coordination run every morning. And from

coordination run every morning. And from
coordination run every morning. And from that point onward, every morning you'll
that point onward, every morning you'll
that point onward, every morning you'll know exactly what your day is going to
know exactly what your day is going to
know exactly what your day is going to look like. In co-work, you do this by
look like. In co-work, you do this by
look like. In co-work, you do this by going to the schedule tab in the sidebar
going to the schedule tab in the sidebar
going to the schedule tab in the sidebar or using the schedule command inside a
or using the schedule command inside a
or using the schedule command inside a task. Of course, be careful about
task. Of course, be careful about
task. Of course, be careful about scheduling anything that touches
scheduling anything that touches
scheduling anything that touches sensitive data or acts on your behalf
sensitive data or acts on your behalf
sensitive data or acts on your behalf without your approval. And then as you
without your approval. And then as you
without your approval. And then as you get more comfortable, you can promote
get more comfortable, you can promote
get more comfortable, you can promote this agent as your executive assistant.
this agent as your executive assistant.
this agent as your executive assistant. You can prompt, can you block two slots
You can prompt, can you block two slots
You can prompt, can you block two slots for 30 minutes each so I can go running
for 30 minutes each so I can go running
for 30 minutes each so I can go running with my buddy? the agent will find time
with my buddy? the agent will find time
with my buddy? the agent will find time for you so you can do things you want to
for you so you can do things you want to
for you so you can do things you want to do on your busy day. So that's your
do on your busy day. So that's your
do on your busy day. So that's your coordination agent. The first lesson,
coordination agent. The first lesson,
coordination agent. The first lesson, don't delegate the decision immediately.
don't delegate the decision immediately.
don't delegate the decision immediately. First make the work visible, then make
First make the work visible, then make
First make the work visible, then make it efficient, then make it automatic,
it efficient, then make it automatic,
it efficient, then make it automatic, and then and only then use your judgment
and then and only then use your judgment
and then and only then use your judgment to delegate and hand off slowly. And the
to delegate and hand off slowly. And the
to delegate and hand off slowly. And the second lesson is to not hurry through
second lesson is to not hurry through
second lesson is to not hurry through this process. Start with email, add
this process. Start with email, add
this process. Start with email, add calendar later after you trust the

calendar later after you trust the
calendar later after you trust the output. Let your agent earn higher
output. Let your agent earn higher
output. Let your agent earn higher responsibility one step at a time. You
responsibility one step at a time. You
responsibility one step at a time. You know, we don't get promoted easily.
know, we don't get promoted easily.
know, we don't get promoted easily. Neither should your agent. And by the
Neither should your agent. And by the
Neither should your agent. And by the way, if you like these kind of
way, if you like these kind of
way, if you like these kind of frameworks and systems thinking, I write
frameworks and systems thinking, I write
frameworks and systems thinking, I write a newsletter that goes deep into these
a newsletter that goes deep into these
a newsletter that goes deep into these themes every Tuesday. One insight, one
themes every Tuesday. One insight, one
themes every Tuesday. One insight, one tool, one practice. Link is below and
tool, one practice. Link is below and
tool, one practice. Link is below and it's free. All right. Now it's time to
it's free. All right. Now it's time to
it's free. All right. Now it's time to move to the second pillar. C for
move to the second pillar. C for
move to the second pillar. C for creativity. Here you bring your rough
creativity. Here you bring your rough
creativity. Here you bring your rough cut, notes, documents, background, messy
cut, notes, documents, background, messy
cut, notes, documents, background, messy thoughts, whatever you already have. The
thoughts, whatever you already have. The
thoughts, whatever you already have. The agent helps assemble it into something
agent helps assemble it into something
agent helps assemble it into something you can judge. You're still the
you can judge. You're still the
you can judge. You're still the director. You own the decision. So let's
director. You own the decision. So let's
director. You own the decision. So let's do a walkthrough on how to build this
do a walkthrough on how to build this
do a walkthrough on how to build this agent. This time you're giving the agent
agent. This time you're giving the agent
agent. This time you're giving the agent your rough cut and a target. It is the
your rough cut and a target. It is the
your rough cut and a target. It is the same prompt skeleton from the last
same prompt skeleton from the last
same prompt skeleton from the last agent. The job, the tool, the
agent. The job, the tool, the
agent. The job, the tool, the categories, the output, the boundary.
categories, the output, the boundary.
categories, the output, the boundary. And for this particular agent, the
And for this particular agent, the
And for this particular agent, the output is where you focus the most

output is where you focus the most
output is where you focus the most because that's where you're going to
because that's where you're going to
because that's where you're going to define who it's for, how long, what
define who it's for, how long, what
define who it's for, how long, what format, what voice. Okay. So, let's use
format, what voice. Okay. So, let's use
format, what voice. Okay. So, let's use this creativity agent to make a
this creativity agent to make a
this creativity agent to make a PowerPoint presentation. I open Claude
PowerPoint presentation. I open Claude
PowerPoint presentation. I open Claude Cowwork on my desktop and point it to a
Cowwork on my desktop and point it to a
Cowwork on my desktop and point it to a folder on my computer. That folder is
folder on my computer. That folder is
folder on my computer. That folder is where I drop my rough notes and it's
where I drop my rough notes and it's
where I drop my rough notes and it's where the finished deck will be created
where the finished deck will be created
where the finished deck will be created as well. I give it the notes and tell it
as well. I give it the notes and tell it
as well. I give it the notes and tell it what I want. Here are my notes for an
what I want. Here are my notes for an
what I want. Here are my notes for an idea. I want to pitch this to the CFO.
idea. I want to pitch this to the CFO.
idea. I want to pitch this to the CFO. Build me a short pitch deck. Ask me
Build me a short pitch deck. Ask me
Build me a short pitch deck. Ask me questions if you have any gaps in your
questions if you have any gaps in your
questions if you have any gaps in your understanding. I want eight to 10 slides
understanding. I want eight to 10 slides
understanding. I want eight to 10 slides and I want that pitch to last for maybe
and I want that pitch to last for maybe
and I want that pitch to last for maybe 15 minutes. It will read my notes. It'll
15 minutes. It will read my notes. It'll
15 minutes. It will read my notes. It'll ask me questions if it has any. It'll
ask me questions if it has any. It'll
ask me questions if it has any. It'll even fill the gaps with a little
even fill the gaps with a little
even fill the gaps with a little research and build the actual deck. What
research and build the actual deck. What
research and build the actual deck. What comes out is a real PowerPoint file that
comes out is a real PowerPoint file that
comes out is a real PowerPoint file that I can open and edit in Microsoft
I can open and edit in Microsoft
I can open and edit in Microsoft PowerPoint. Now I can direct. I see
PowerPoint. Now I can direct. I see
PowerPoint. Now I can direct. I see what's working, what's weak. I can tell
what's working, what's weak. I can tell
what's working, what's weak. I can tell the agent what to change. Make this

the agent what to change. Make this
the agent what to change. Make this longer, make this shorter, make this a
longer, make this shorter, make this a
longer, make this shorter, make this a three bullet slide. Can we make the
three bullet slide. Can we make the
three bullet slide. Can we make the opening slide cleaner? Delete this
opening slide cleaner? Delete this
opening slide cleaner? Delete this slide. Whatever comes to mind. The agent
slide. Whatever comes to mind. The agent
slide. Whatever comes to mind. The agent will help you rebuild. Now, this deck
will help you rebuild. Now, this deck
will help you rebuild. Now, this deck came out as a real file because Claude
came out as a real file because Claude
came out as a real file because Claude uses something called a skill. That's
uses something called a skill. That's
uses something called a skill. That's just a set of instructions for doing a
just a set of instructions for doing a
just a set of instructions for doing a specific job. It ships with skills for
specific job. It ships with skills for
specific job. It ships with skills for PowerPoint, Word, Excel, PDFs, which is
PowerPoint, Word, Excel, PDFs, which is
PowerPoint, Word, Excel, PDFs, which is why you get real files. Now, what if you
why you get real files. Now, what if you
why you get real files. Now, what if you want to change the look and feel? Well,
want to change the look and feel? Well,
want to change the look and feel? Well, you can drop one of the decks that you
you can drop one of the decks that you
you can drop one of the decks that you like and ask the agent to match that
like and ask the agent to match that
like and ask the agent to match that style. Another cool way of doing it is
style. Another cool way of doing it is
style. Another cool way of doing it is that you can even ask the agent to turn
that you can even ask the agent to turn
that you can even ask the agent to turn your brand template into a skill. From
your brand template into a skill. From
your brand template into a skill. From that point, the agent will then always
that point, the agent will then always
that point, the agent will then always apply the same colors, the same fonts,
apply the same colors, the same fonts,
apply the same colors, the same fonts, the same layout to every deck and
the same layout to every deck and
the same layout to every deck and document you'll ever make. Now, this is
document you'll ever make. Now, this is
document you'll ever make. Now, this is just one example of using skills. You
just one example of using skills. You
just one example of using skills. You can come up with hundred others. We're
can come up with hundred others. We're
can come up with hundred others. We're not just learning tools here. We're
not just learning tools here. We're
not just learning tools here. We're learning a new way of thinking. Now,

learning a new way of thinking. Now,
learning a new way of thinking. Now, make sure that the ultimate direction
make sure that the ultimate direction
make sure that the ultimate direction comes from you. These agents are your
comes from you. These agents are your
comes from you. These agents are your multipliers. If you come in clear, AI
multipliers. If you come in clear, AI
multipliers. If you come in clear, AI will multiply your clarity. If you come
will multiply your clarity. If you come
will multiply your clarity. If you come in confused, well, the AI multiplies the
in confused, well, the AI multiplies the
in confused, well, the AI multiplies the confusion. And the best way to create
confusion. And the best way to create
confusion. And the best way to create that clarity is to do a lot of
that clarity is to do a lot of
that clarity is to do a lot of experiments and figure out what's the
experiments and figure out what's the
experiments and figure out what's the best way to tweak your output and even
best way to tweak your output and even
best way to tweak your output and even your agents. And over time, you'll build
your agents. And over time, you'll build
your agents. And over time, you'll build a very strong intuition to get what you
a very strong intuition to get what you
a very strong intuition to get what you want. But what if you're spending hours
want. But what if you're spending hours
want. But what if you're spending hours trying to understand a confusing and
trying to understand a confusing and
trying to understand a confusing and complex document? What if you need
complex document? What if you need
complex document? What if you need clarity to even understand what's going
clarity to even understand what's going
clarity to even understand what's going on in that document? That's our third
on in that document? That's our third
on in that document? That's our third time-saving pillar. C for clarity. We've
time-saving pillar. C for clarity. We've
time-saving pillar. C for clarity. We've
time-saving pillar. C for clarity. We've all signed things we didn't understand.
all signed things we didn't understand.
all signed things we didn't understand. A loan contract, a car lease, a medical
A loan contract, a car lease, a medical
A loan contract, a car lease, a medical report, an insurance policy. It's all
report, an insurance policy. It's all
report, an insurance policy. It's all right there. It's correct, but it's so
right there. It's correct, but it's so
right there. It's correct, but it's so confusing because many of these
confusing because many of these
confusing because many of these documents are written in a language
documents are written in a language
documents are written in a language built to protect those who wrote them.
built to protect those who wrote them.
built to protect those who wrote them. That's where the clarity agent will save

That's where the clarity agent will save
That's where the clarity agent will save you a ton of time and hassle. is your
you a ton of time and hassle. is your
you a ton of time and hassle. is your translator and that's what we're going
translator and that's what we're going
translator and that's what we're going to build. The best way to understand
to build. The best way to understand
to build. The best way to understand what we're building is to think about
what we're building is to think about
what we're building is to think about two scopes, a telescope and a
two scopes, a telescope and a
two scopes, a telescope and a microscope. Sometimes what you're
microscope. Sometimes what you're
microscope. Sometimes what you're looking for is scattered across so many
looking for is scattered across so many
looking for is scattered across so many places that you need the agent to pull
places that you need the agent to pull
places that you need the agent to pull it all together. And sometimes it's the
it all together. And sometimes it's the
it all together. And sometimes it's the exact opposite. Sometimes what you're
exact opposite. Sometimes what you're
exact opposite. Sometimes what you're looking for is buried so deep in a
looking for is buried so deep in a
looking for is buried so deep in a single dense document that the agent has
single dense document that the agent has
single dense document that the agent has to dig in, extract the key ideas,
to dig in, extract the key ideas,
to dig in, extract the key ideas, explain the jargon, flag the risk. That
explain the jargon, flag the risk. That
explain the jargon, flag the risk. That is your microscope. So let's go through
is your microscope. So let's go through
is your microscope. So let's go through both of them and build both ideas. Say
both of them and build both ideas. Say
both of them and build both ideas. Say I'm about to sign a deal with a company
I'm about to sign a deal with a company
I'm about to sign a deal with a company I don't know well. So I can tell the
I don't know well. So I can tell the
I don't know well. So I can tell the agent, find out who they are. Find out
agent, find out who they are. Find out
agent, find out who they are. Find out everything you can from the internet.
everything you can from the internet.
everything you can from the internet. analyze our past emails with them
analyze our past emails with them
analyze our past emails with them because hey, we've already built our
because hey, we've already built our
because hey, we've already built our coordination agent. Remember, find out
coordination agent. Remember, find out
coordination agent. Remember, find out anything recent in the news and tell me
anything recent in the news and tell me
anything recent in the news and tell me more about this deal that I'm trying to

more about this deal that I'm trying to
more about this deal that I'm trying to strike with them. And if I have uploaded
strike with them. And if I have uploaded
strike with them. And if I have uploaded documents, the agent will search all my
documents, the agent will search all my
documents, the agent will search all my documents, all my connected tools, my
documents, all my connected tools, my
documents, all my connected tools, my Google Drive, and the web and come back
Google Drive, and the web and come back
Google Drive, and the web and come back with one picture. And what if I want to
with one picture. And what if I want to
with one picture. And what if I want to know more about their product or
know more about their product or
know more about their product or competitive strategy? We let the agent
competitive strategy? We let the agent
competitive strategy? We let the agent do the work for us. And the prompt could
do the work for us. And the prompt could
do the work for us. And the prompt could be now go and do deep research on their
be now go and do deep research on their
be now go and do deep research on their core product from reliable sources.
core product from reliable sources.
core product from reliable sources. Create a document in my folder and site
Create a document in my folder and site
Create a document in my folder and site the sources. Cloud co-work agents
the sources. Cloud co-work agents
the sources. Cloud co-work agents already have web search and deep
already have web search and deep
already have web search and deep research built in. Same for Geminina and
research built in. Same for Geminina and
research built in. Same for Geminina and Chat GPT. The interface may look
Chat GPT. The interface may look
Chat GPT. The interface may look different, but it's the same idea. Two
different, but it's the same idea. Two
different, but it's the same idea. Two phrases I use the most when I work in
phrases I use the most when I work in
phrases I use the most when I work in telescope mode. Please verify and be
telescope mode. Please verify and be
telescope mode. Please verify and be concise. They can be super helpful.
concise. They can be super helpful.
concise. They can be super helpful. Sometimes I take the research output
Sometimes I take the research output
Sometimes I take the research output from one AI engine to another one and
from one AI engine to another one and
from one AI engine to another one and make sure I can crossverify. That is my
make sure I can crossverify. That is my
make sure I can crossverify. That is my advisory board and there are three
advisory board and there are three
advisory board and there are three members in it. Claude, Gemini, and Chad
members in it. Claude, Gemini, and Chad
members in it. Claude, Gemini, and Chad GBT. and sometimes they fight among

GBT. and sometimes they fight among
GBT. and sometimes they fight among themselves, which is great for me. Now,
themselves, which is great for me. Now,
themselves, which is great for me. Now, it's time to change our scope. We're
it's time to change our scope. We're
it's time to change our scope. We're going to use the microscope. Let's say
going to use the microscope. Let's say
going to use the microscope. Let's say we have a contract from the same
we have a contract from the same
we have a contract from the same company. I upload it. The first mistake
company. I upload it. The first mistake
company. I upload it. The first mistake most people make is asking summarize
most people make is asking summarize
most people make is asking summarize this contract. A summary makes a
this contract. A summary makes a
this contract. A summary makes a confusing document shorter. Sure, but in
confusing document shorter. Sure, but in
confusing document shorter. Sure, but in legal contracts or long policies, the
legal contracts or long policies, the
legal contracts or long policies, the devil is always in the details. So
devil is always in the details. So
devil is always in the details. So instead, my prompt would be read this
instead, my prompt would be read this
instead, my prompt would be read this document carefully. Find the key terms
document carefully. Find the key terms
document carefully. Find the key terms like fee structure and obligations and
like fee structure and obligations and
like fee structure and obligations and deadlines and exclusions and risks. Pay
deadlines and exclusions and risks. Pay
deadlines and exclusions and risks. Pay attention to anything that's unclear or
attention to anything that's unclear or
attention to anything that's unclear or anything that makes me liable. Create a
anything that makes me liable. Create a
anything that makes me liable. Create a table with five columns. what the
table with five columns. what the
table with five columns. what the contract says, what it means in plain
contract says, what it means in plain
contract says, what it means in plain English, why it matters, the risk level,
English, why it matters, the risk level,
English, why it matters, the risk level, and the questions I should be asking.
and the questions I should be asking.
and the questions I should be asking. Again, that's just one of many prompts
Again, that's just one of many prompts
Again, that's just one of many prompts you can give it. But you get the point.
you can give it. But you get the point.
you can give it. But you get the point. You want to break that document open,
You want to break that document open,
You want to break that document open, not get a bird's eye view on it. That's
not get a bird's eye view on it. That's
not get a bird's eye view on it. That's what agents can do for you. And now one

what agents can do for you. And now one
what agents can do for you. And now one more important thing. Your mileage may
more important thing. Your mileage may
more important thing. Your mileage may vary, but I personally don't like
vary, but I personally don't like
vary, but I personally don't like uploading sensitive information like
uploading sensitive information like
uploading sensitive information like personal financial data or medical
personal financial data or medical
personal financial data or medical reports. So be mindful about all of
reports. So be mindful about all of
reports. So be mindful about all of that. All right, we're on to the fourth
that. All right, we're on to the fourth
that. All right, we're on to the fourth pillar. This last agent helps you handle
pillar. This last agent helps you handle
pillar. This last agent helps you handle the moment once you're in the room. The
the moment once you're in the room. The
the moment once you're in the room. The interview, the raise, the pitch. With
interview, the raise, the pitch. With
interview, the raise, the pitch. With some conversations, you only get one
some conversations, you only get one
some conversations, you only get one shot. That's why you have to rehearse. I
shot. That's why you have to rehearse. I
shot. That's why you have to rehearse. I remember my first job interview. It was
remember my first job interview. It was
remember my first job interview. It was a long time ago and I had no idea what
a long time ago and I had no idea what
a long time ago and I had no idea what to do, what to wear. I didn't even know
to do, what to wear. I didn't even know
to do, what to wear. I didn't even know how to tie a tie. I don't think I even
how to tie a tie. I don't think I even
how to tie a tie. I don't think I even owned a tie. So, I asked my roommate if
owned a tie. So, I asked my roommate if
owned a tie. So, I asked my roommate if I could borrow his tie. His name was
I could borrow his tie. His name was
I could borrow his tie. His name was Mike Green. Awesome, awesome roommate.
Mike Green. Awesome, awesome roommate.
Mike Green. Awesome, awesome roommate. He said, "Sure, but do you know how to
He said, "Sure, but do you know how to
He said, "Sure, but do you know how to wear it?" and I shook my head and we
wear it?" and I shook my head and we
wear it?" and I shook my head and we both cracked up. So, he got a tie, tied
both cracked up. So, he got a tie, tied
both cracked up. So, he got a tie, tied it around his neck first, loosened it,
it around his neck first, loosened it,
it around his neck first, loosened it, and handed it to me and said, "Good
and handed it to me and said, "Good
and handed it to me and said, "Good luck." Of course, I walked in wearing a
luck." Of course, I walked in wearing a
luck." Of course, I walked in wearing a borrowed tie, but still had the same

borrowed tie, but still had the same
borrowed tie, but still had the same anxiety about my first interview. Turns
anxiety about my first interview. Turns
anxiety about my first interview. Turns out that when it comes to interview
out that when it comes to interview
out that when it comes to interview anxiety, I'm not alone. In a survey done
anxiety, I'm not alone. In a survey done
anxiety, I'm not alone. In a survey done by JDP, 93%
by JDP, 93%
by JDP, 93% of people said they get anxious about
of people said they get anxious about
of people said they get anxious about job interviews. That's almost all of us.
job interviews. That's almost all of us.
job interviews. That's almost all of us. But the survey also said something very
But the survey also said something very
But the survey also said something very useful. One of the best ways to reduce
useful. One of the best ways to reduce
useful. One of the best ways to reduce that anxiety is to practice that
that anxiety is to practice that
that anxiety is to practice that interview out loud. That's the whole
interview out loud. That's the whole
interview out loud. That's the whole point of the coaching agent. The first
point of the coaching agent. The first
point of the coaching agent. The first time you say the most important thing,
time you say the most important thing,
time you say the most important thing, you should not be in the most important
you should not be in the most important
you should not be in the most important room. We are going to build an agent
room. We are going to build an agent
room. We are going to build an agent that helps you rehearse. I know CEOs who
that helps you rehearse. I know CEOs who
that helps you rehearse. I know CEOs who rehearse their entire board meeting with
rehearse their entire board meeting with
rehearse their entire board meeting with six or seven agents where each agent is
six or seven agents where each agent is
six or seven agents where each agent is designed to mimic the personality of a
designed to mimic the personality of a
designed to mimic the personality of a specific board member. Yeah, it's that
specific board member. Yeah, it's that
specific board member. Yeah, it's that important. We will use job interview as
important. We will use job interview as
important. We will use job interview as an example as we build it, but you can
an example as we build it, but you can
an example as we build it, but you can use it for any professional or personal
use it for any professional or personal
use it for any professional or personal conversation or negotiations. Okay,
conversation or negotiations. Okay,
conversation or negotiations. Okay, first I add all the context. The company
first I add all the context. The company
first I add all the context. The company background, job description, my cover

background, job description, my cover
background, job description, my cover letter, my resume, my position
letter, my resume, my position
letter, my resume, my position statement, and so on. Second, we want to
statement, and so on. Second, we want to
statement, and so on. Second, we want to tell the agent who to be. You are the
tell the agent who to be. You are the
tell the agent who to be. You are the hiring manager for a senior product
hiring manager for a senior product
hiring manager for a senior product role. You are sharp, you're a little
role. You are sharp, you're a little
role. You are sharp, you're a little skeptical, and you've read my resume, so
skeptical, and you've read my resume, so
skeptical, and you've read my resume, so go ahead and interview me. ask one
go ahead and interview me. ask one
go ahead and interview me. ask one question at a time and push back on weak
question at a time and push back on weak
question at a time and push back on weak answers like a real interviewer would
answers like a real interviewer would
answers like a real interviewer would and keep track of our entire interview
and keep track of our entire interview
and keep track of our entire interview so we can analyze and improve my
so we can analyze and improve my
so we can analyze and improve my performance. And here's the move that
performance. And here's the move that
performance. And here's the move that makes it all real. Don't type it, talk
makes it all real. Don't type it, talk
makes it all real. Don't type it, talk to it. Turn on the voice mode on your
to it. Turn on the voice mode on your
to it. Turn on the voice mode on your phone. So chat GPT, Gemini, Claude, they
phone. So chat GPT, Gemini, Claude, they
phone. So chat GPT, Gemini, Claude, they all let you speak out loud and they all
all let you speak out loud and they all
all let you speak out loud and they all can have natural conversation with you.
can have natural conversation with you.
can have natural conversation with you. You can interrupt it. You can ask
You can interrupt it. You can ask
You can interrupt it. You can ask clarifying questions. It's a real
clarifying questions. It's a real
clarifying questions. It's a real conversation. I do this all the time on
conversation. I do this all the time on
conversation. I do this all the time on my walks. And when I'm done, I want both
my walks. And when I'm done, I want both
my walks. And when I'm done, I want both the agent and me to break character. I
the agent and me to break character. I
the agent and me to break character. I would say, "Okay, we're done with the
would say, "Okay, we're done with the
would say, "Okay, we're done with the interview. Now you're my interview
interview. Now you're my interview
interview. Now you're my interview coach. Tell me where I was weak, where I

coach. Tell me where I was weak, where I
coach. Tell me where I was weak, where I fumbled, what I should have said. Tell
fumbled, what I should have said. Tell
fumbled, what I should have said. Tell me where I rambled on. Give me three
me where I rambled on. Give me three
me where I rambled on. Give me three ways I could have answered that question
ways I could have answered that question
ways I could have answered that question better." And once the coaching session
better." And once the coaching session
better." And once the coaching session is over, now you can turn up the heat.
is over, now you can turn up the heat.
is over, now you can turn up the heat. Give that agent a persona of a tougher
Give that agent a persona of a tougher
Give that agent a persona of a tougher hiring manager. Maybe you're applying to
hiring manager. Maybe you're applying to
hiring manager. Maybe you're applying to a startup and the CEO will be the one
a startup and the CEO will be the one
a startup and the CEO will be the one interviewing you at the end. Give that
interviewing you at the end. Give that
interviewing you at the end. Give that persona to the agent. Let the agent know
persona to the agent. Let the agent know
persona to the agent. Let the agent know that it should conduct the interview in
that it should conduct the interview in
that it should conduct the interview in that persona for 45 minutes and give you
that persona for 45 minutes and give you
that persona for 45 minutes and give you the last 15 minutes to ask questions to
the last 15 minutes to ask questions to
the last 15 minutes to ask questions to that CEO because that will happen in
that CEO because that will happen in
that CEO because that will happen in real life. And finally, once you're done
real life. And finally, once you're done
real life. And finally, once you're done with all your reps, don't forget to ask.
with all your reps, don't forget to ask.
with all your reps, don't forget to ask. Turn what you've learned into a one-page
Turn what you've learned into a one-page
Turn what you've learned into a one-page prep card so I can review it before the
prep card so I can review it before the
prep card so I can review it before the interview. Now you have something you
interview. Now you have something you
interview. Now you have something you can use. Your goal here is not to create
can use. Your goal here is not to create
can use. Your goal here is not to create a set of scripted answers, but to build
a set of scripted answers, but to build
a set of scripted answers, but to build the capacity to deliver good answers no
the capacity to deliver good answers no
the capacity to deliver good answers no matter what the questions are. Like all
matter what the questions are. Like all
matter what the questions are. Like all great musicians, rehearsals teach you to
great musicians, rehearsals teach you to
great musicians, rehearsals teach you to build judgment and taste so you can

build judgment and taste so you can
build judgment and taste so you can become comfortable improvising on stage.
become comfortable improvising on stage.
become comfortable improvising on stage. So those are the four pillars. You know,
So those are the four pillars. You know,
So those are the four pillars. You know, as AI becomes more entangled in our

协调，因为 人工智能首先应该防止你的日常生活被
人工智能首先应该防止你的日常生活被

人工智能首先应该防止你的日常生活被劫持。微软研究了劫持。微软研究了我们的实际工作方式，结果令人震惊。普通员工每天会收到 117 封电子邮件，我们每 2 分钟就会被电子邮件、会议或消息打断。那相当于每天 275 次。顺便说一句，以上所有因素都不包括社交媒体的干扰。我们的注意力每天都被分割成碎片。所以，让我们构建一个协调代理，它可以读取你的收件箱、查看日历、规划你的一天，让你重新拥有时间和精力。我们将首先构建电子邮件代理，然后紧接着添加日历。在本教程中，我将使用 Claude Co-work。聊天室是提问的地方。协同办公是指分配工作。但不要过于纠结于界面。如果你使用聊天 GPT、Gemini 或任何其他代理工具，同样的原理也适用。按钮会改变，但工作流程不会改变。好的，这是 Claude 应用。您可以选择

協調，因為 人工智慧應該首先防止你的日常生活被
人工智慧應該首先防止你的日常生活被

人工智慧應該首先防止你的日常生活被劫持。微軟研究了劫持。微軟研究了我們實際的工作方式，結果令人震驚。普通員工每天會收到 117 封電子郵件，我們每 2 分鐘就會被電子郵件、會議或訊息打斷。那相當於每天 275 次。順便說一句，以上所有因素都不包括社群媒體的干擾。我們的注意力每天都被分割成碎片。所以，讓我們建立一個協調代理，它可以讀取你的收件匣、查看日曆、規劃你的一天，讓你重新擁有時間和精力。我們將首先建立電子郵件代理，然後緊接著添加日曆。在本教程中，我將使用 Claude Co-work。聊天室是提問的地方。協同辦公是指分配工作。但不要過於糾結於介面。如果你使用聊天 GPT、Gemini 或任何其他代理工具，同樣的原理也適用。按鈕會改變，但工作流程不會改變。好的，這是 Claude 應用。您可以選擇

[00:07:01.589] 創造力。在這裡，你可以把你的粗
[00:07:01.599] 創造力。在這裡，你可以把你的粗 剪版本、筆記、文件、背景資料、雜亂的
[00:07:05.430] 剪版本、筆記、文件、背景資料、雜亂的
[00:07:05.440] 剪版本、筆記、文件、背景資料、雜亂的 思緒，以及你已經擁有的任何東西都帶過來。
[00:07:08.070] 思緒，以及你已經擁有的任何東西都帶過來。
[00:07:18.400] 代理人會幫助將其組裝成你可以評判的東西。你仍然是導演。決定權在你手中。那麼，讓我們來逐步了解如何
建立這個代理程式。這次
[00:07:35.360]
你要給經紀人一個粗略的版本和一個目標。這是與上一個代理相同的提示框架。工作、工具、類別、輸出、邊界。
對這位特定的代理人來說，輸出結果才是你最關注的地方，因為你要在這裡

[00:07:36.639]

你要給經紀人一個粗略的版本和一個目標。這是與上一個代理相同的提示框架。工作、工具、類別、輸出、邊界。對這位特定的代理人來說，輸出結果才是你最關注的地方，因為你要在這裡定義目標受眾、長度、格式和

[00:07:39.350] 定義目標受眾、長度、格式和

[00:07:39.360] 定義目標受眾、長度、格式和語氣。好的。那麼，讓我們利用

[00:07:42.230] 語氣。好的。那麼，讓我們利用

[00:07:42.240] 語氣。好的。那麼，讓我們利用這個創意工具來製作一個

[00:07:44.230] 這個創意工具來製作一個

[00:07:44.240] 這個創意工具來製作一個 PowerPoint 簡報。

[00:07:46.950] PowerPoint 簡報。

[00:07:53.599] 我在桌面上打開 Claude Cowwork，並將其指向我電腦上的一個資料夾。那個資料夾是我存放草稿的

[00:07:56.080] 我在桌面上打開 Claude Cowwork，並將其指向我電腦上的一個資料夾。那個資料夾是我存放草稿的地方，最終的卡組也會在那裡建立

[00:07:58.629] 地方，最終的卡組也會在那裡建立

[00:07:58.639] 地方，最終的卡組也會在那裡建立。我給它設定好目標，告訴它

[00:08:01.110]。我給它設定好目標，告訴它

[00:08:01.120]。我給它設定好目標，告訴它 我想要什麼。以下是我記錄的一個

[00:08:03.510] 我想要什麼。以下是我記錄的一個

[00:08:03.520] 我想要什麼。以下是我記錄的一個想法。我想把這個方案交給財務長。

[00:08:07.350] 想法。我想把這個方案交給財務長。

[00:08:18.319] 請幫我準備一份簡短的推介簡報。如果有什麼不明白的地方，儘管問。我想要8到10張投影片，演講時間大概15分鐘。它會讀取我的筆記。

[00:08:20.960] 請幫我準備一份簡短的推介簡報。如果有什麼不明白的地方，儘管問。我想要8到10張投影片，演講時間大概15分鐘。它會讀取我的筆記。如果有任何問題，它會問我。它

[00:08:23.350] 如果有任何問題，它會問我。它

[00:08:23.360] 如果有任何問題，它會問我。它 甚至可以通過一些

[00:08:25.430] 甚至可以通過一些

[00:08:25.440] 甚至可以通過一些 研究來填補空白，並建立實際的甲板。

[00:08:29.589] 研究來填補空白，並建立實際的甲板。

[00:08:40.640] 產生的是一個真正的 PowerPoint 文件，我可以在 Microsoft PowerPoint 中開啟和編輯。現在我可以執導了。我明白了哪些方面做得好，哪些方面做得不好。我可以告訴經紀人需要修改什麼。加長一點

[00:08:43.599] 產生的是一個真正的 PowerPoint 文件，我可以在 Microsoft PowerPoint 中開啟和編輯。現在我可以執導了。我明白了哪些方面做得好，哪些方面做得不好。我可以告訴經紀人需要修改什麼。加長一點，縮短一點，做成

[00:08:46.389]，縮短一點，做成

[00:08:46.399]，縮短一點，做成三彈幻燈片。我們能讓開場投影片更乾淨一點嗎？刪除

[00:08:48.310] 三彈幻燈片。我們能讓開場投影片更乾淨一點嗎？刪除

[00:08:48.320] 三彈幻燈片。我們能讓開場投影片更乾淨一點嗎？刪除 此

[00:08:50.790] 此

[00:08:50.800] 此投影片。想到什麼就說什麼。代理人

[00:08:53.430] 投影片。想到什麼就說什麼。代理人

[00:08:53.440] 投影片。想到什麼就說什麼。代理人 將幫助您重建。

[00:08:55.590] 將幫助您重建。

[00:09:09.920]

現在，這副牌組以正式文件的形式發布了，因為克勞德使用了叫做技能的東西。那隻是完成特定工作的一系列指令。它具備 PowerPoint、Word、Excel 和 PDF 的相關技能，因此您可以獲得真實的文件。

[00:09:12.480]

現在，這副牌組以正式文件的形式發布了，因為克勞德使用了叫做技能的東西。那隻是完成特定工作的一系列指令。它具備 PowerPoint、Word、Excel 和 PDF 的相關技能，因此您可以獲得真實的文件。那麼，如果你想改變外觀和感覺呢？

[00:09:13.990] 那麼，如果你想改變外觀和感覺呢？

[00:09:14.000] 那麼，如果你想改變外觀和感覺呢？你可以留下你喜歡的一套牌組，然後要求

[00:09:15.750] 你可以留下你喜歡的一套牌組，然後要求

[00:09:20.080] 經紀人按照那種風格製作。另一個很棒的方法是，你甚至可以要求經紀人將

[00:09:22.320] 經紀人按照那種風格製作。另一個很棒的方法是，你甚至可以要求經紀人將你的品牌模板轉化為

[00:09:24.870] 你的品牌模板轉化為

[00:09:34.320] 技能。從那時起，該代理將始終對您製作的每個簡報和文件套用相同的顏色、相同的字體和相同的佈局。這只是運用技能的一個例子。你還

[00:09:37.440] 技能。從那時起，該代理將始終對您製作的每個簡報和文件套用相同的顏色、相同的字體和相同的佈局。這只是運用技能的一個例子。你還可以想出上百個其他的例子。

[00:09:39.509] 可以想出上百個其他的例子。

[00:09:39.519] 可以想出上百個其他的例子。我們在這裡不僅僅是學習工具。我們正在

[00:09:41.430] 我們在這裡不僅僅是學習工具。我們正在

[00:09:41.440] 我們在這裡不僅僅是學習工具。我們正在學習一種新的思考方式。現在，

[00:09:43.910] 學習一種新的思考方式。現在，

[00:09:43.920] 學習一種新的思考方式。現在，務必確保最終方向

[00:09:46.389] 務必確保最終方向
[00:09:46.399] 務必確保最終方向 來自你。這些代理人就是你的
[00:09:49.030] 來自你。這些代理人就是你的
[00:09:49.040] 來自你。這些代理人就是你的 倍增器。如果你思路清晰，人工智慧
[00:09:51.750] 倍增器。如果你思路清晰，人工智慧
[00:09:51.760] 倍增器。如果你思路清晰，人工智慧 會倍增你的清晰度
[00:09:53.829] 會倍增你的清晰度
[00:09:57.120] 。如果你帶著困惑的心情來到這裡，那麼人工智慧只會加劇你的困惑。而實現
[00:09:58.800] 。如果你帶著困惑的心情來到這裡，那麼人工智慧只會加劇你的困惑。而實現
這種清晰度的最佳方法是進行大量的實驗，
[00:10:01.190] 這種清晰度的最佳方法是進行大量的實驗，

[00:13:01.760] 顧問委員會，共有三位 成員。Claude、Gemini 和 Chad

[00:13:05.190] 成員。Claude、Gemini 和 Chad

[00:13:05.200] 成員。Claude、Gemini 和 Chad GBT。他們有時還會互相爭鬥，

[00:13:07.350] GBT。他們有時還會互相爭鬥，

[00:13:07.360] GBT。他們有時還會互相爭鬥， 這對我來說是件好事。現在，

[00:13:09.829] 這對我來說是件好事。現在，

[00:13:09.839] 這對我來說是件好事。現在， 是時候改變我們的研究範圍了。我們將使用顯微鏡。

[00:13:11.829] 是時候改變我們的研究範圍了。我們將使用顯微鏡。

[00:13:11.839] 是時候改變我們的研究範圍了。我們將使用顯微鏡。假設

[00:13:14.389] 假設

[00:13:14.399] 假設 我們有一份來自同一家

[00:13:16.230] 我們有一份來自同一家

[00:13:16.240] 我們有一份來自同一家 公司的合約。我上傳了。

[00:13:19.509] 公司的合約。我上傳了。

[00:13:19.519] 公司的合約。我上傳了。大多數人犯的第一個錯誤是要求

[00:13:22.550] 大多數人犯的第一個錯誤是要求

[00:13:34.480] 概括這份合約。摘要可以使晦澀難懂的文件更簡潔。當然，但在

[00:13:41.360] 法律合約或長期保單中，魔鬼總是藏在細節裡。因此，我的提示會改為：請仔細閱讀這份文件。找出關鍵條款，例如費用結構、義務、

[00:13:44.720] 法律合約或長期保單中，魔鬼總是藏在細節裡。因此，我的提示會改為：請仔細閱讀這份文件。找出關鍵條款，例如費用結構、義務、截止日期、除外責任和風險。

[00:13:48.550] 截止日期、除外責任和風險。

[00:13:48.560] 截止日期、除外責任和風險。注意任何不清楚的地方，或任何可能讓

[00:13:52.310] 注意任何不清楚的地方，或任何可能讓

[00:14:04.800] 我承擔責任的地方。建立一個包含五列的表格。合約內容是什麼？用簡單易懂的語言解釋契約的意思？為什麼合約很重要？風險等級是多少？我該問哪些

[00:14:19.440] 問題？這只是你可以給它的眾多提示之一。

[00:14:23.360] 問題？這只是你可以給它的眾多提示之一。但你

[00:14:26.150] 但你

[00:14:32.240] 明白我的意思

[00:14:35.199] 明白我的意思。你想深入剖析這份文件，而不是只從宏觀

[00:14:37.430] 。你想深入剖析這份文件，而不是只從宏觀

[00:14:37.440] 。你想深入剖析這份文件，而不是只從宏觀 角度審視它。這就是經紀人能為你做的事。還有一件重要的事情。每個人的情況可能不同，但我個人不喜歡上傳敏感訊息，例如個人財務數據或醫療報告。所以要注意所有這些方面。好了，我們現在來看第四根支柱。最後一個代理人會幫助你應付進入房間後的情況。面試、加薪、推銷。

[00:14:40.230] 角度審視它。這就是經紀人能為你做的事。還有一件重要的事情。每個人的情況可能不同，但我個人不喜歡上傳敏感訊息，例如個人財務數據或醫療報告。所以要注意所有這些方面。好了，我們現在來看第四根支柱。最後一個代理人會幫助你應付進入房間後的情況。面試、加薪、推銷。

[00:14:45.279] 有些對話，你只有一次

[00:14:47.440] 有些對話，你只有一次 機會。

[00:14:49.910] 機會。

[00:15:02.000] 所以才需要排練。我還記得我的第一次求職面試。那是很久以前的事了，我完全不知道該做什麼，該

[00:15:14.880] 穿什麼。我以前甚至不知道怎麼打領帶。我好像連領帶都沒有。於是，我問室友能不能藉他的領帶。他的名字叫麥克·格林。超棒的室友。他說：「當然可以，但是你知道怎麼戴嗎？」我搖了搖頭，我們兩個都

[00:15:17.839] 穿什麼。我以前甚至不知道怎麼打領帶。我好像連領帶都沒有。於是，我問室友能不能藉他的領帶。他的名字叫麥克·格林。超棒的室友。他說：「當然可以，但是你知道怎麼戴嗎？」我搖了搖頭，我們兩個都哈哈大笑起來。於是

[00:15:20.870] 哈哈大笑起來。於是

[00:15:26.160] ，他拿了一條領帶，先綁在脖子上，然後鬆開，遞給我，說：「祝你好運。」當然，我戴著

[00:15:28.959] ，他拿了一條領帶，先綁在脖子上，然後鬆開，遞給我，說：「祝你好運。」當然，我戴著

借來的領帶走進去的，但

[00:15:31.030] 借來的領帶走進去的，但

[00:15:31.040] 借來的領帶走進去的，但 對於第一次面試，我仍然感到

[00:15:33.189] 對於第一次面試，我仍然感到

[00:15:50.079] 焦慮。原來，在面試焦慮這件事上，我並不孤單。

JDP進行的一項調查顯示，93%的人表示他們對求職面試感到焦慮。幾乎我們所有人都是如此。

但這項調查也揭示了一些非常有用的信息。緩解這種焦慮的最好方法之一就是

[00:15:52.560] 焦慮。原來，在面試焦慮這件事上，我並不孤單。

JDP進行的一項調查顯示，93%的人表示他們對求職面試感到焦慮。幾乎我們所有人都是如此。

但這項調查也揭示了一些非常有用的信息。緩解這種焦慮的最好方法之一就是 大聲練習面試。這就是

[00:15:54.949] 大聲練習面試。這就是

[00:15:54.959] 大聲練習面試。這就是 教練經紀人的作用

[00:15:57.430] 教練經紀人的作用

[00:16:03.920] 。當你第一次說出最重要的事情時，你不應該待在最重要的房間裡。我們將開發一個幫助你排練的代理商。我知道有些CEO會用

[00:16:10.160] 六、七個代理人來模擬整個董事會會議，每個代理人都旨在模仿

[00:16:16.000] 特定董事會成員的個性。是的，這件事非常

[00:16:19.199] 特定董事會成員的個性。是的，這件事非常 重要。我們將以求職面試

[00:16:21.590] 重要。我們將以求職面試

[00:16:21.600] 重要。我們將以求職面試 為例來講解，但你也可以將

[00:16:24.069] 為例來講解，但你也可以將

[00:16:24.079] 為例來講解，但你也可以將 其用於任何專業或私人

[00:16:26.629] 其用於任何專業或私人

[00:16:26.639] 其用於任何專業或私人 對話或談判。好的，

[00:16:29.189] 對話或談判。好的，

[00:16:29.199] 對話或談判。好的， 首先我補充所有背景資訊。公司

[00:16:32.629] 首先我補充所有背景資訊。公司

[00:16:32.639] 首先我補充所有背景資訊。公司 背景、職位說明、我的求職

[00:16:35.910] 背景、職位說明、我的求職

[00:16:35.920] 背景、職位說明、我的求職 信、我的履歷、我的職位

[00:16:38.470] 信、我的履歷、我的職位
[00:16:38.480] 信、我的履歷、我的職位 陳述等等。其次，我們要
[00:16:41.749] 陳述等等。其次，我們要
[00:16:41.759] 陳述等等。其次，我們要 告訴代理人應該扮演什麼樣的人。您是
[00:16:45.030] 告訴代理人應該扮演什麼樣的人。您是
[00:16:45.040] 告訴代理人應該扮演什麼樣的人。您是 高級產品經理
[00:16:47.269] 高級產品經理
[00:16:47.279] 高級產品經理。你思維敏捷，又有點
[00:16:50.550]。你思維敏捷，又有點
[00:16:50.560]。你思維敏捷，又有點 懷疑精神，而且你已經看過我的履歷，那麼請你
[00:16:53.829] 懷疑精神，而且你已經看過我的履歷，那麼請你
[00:16:53.839] 懷疑精神，而且你已經看過我的履歷，那麼請你 面試我吧。一次只提一個
[00:16:56.150] 面試我吧。一次只提一個
[00:16:56.160] 面試我吧。一次只提一個 問題，
[00:16:58.870] 問題，
[00:16:58.880] 問題， 像真正的面試官一樣對不夠好的回答提出質疑，
[00:17:01.509] 像真正的面試官一樣對不夠好的回答提出質疑，
[00:17:01.519] 像真正的面試官一樣對不夠好的回答提出質疑， 並記錄整個面試過程，
[00:17:04.549] 並記錄整個面試過程，
[00:17:04.559] 並記錄整個面試過程， 以便我們分析和
[00:17:07.189] 以便我們分析和
[00:17:23.760] 改進我的表現。而接下來這一步，讓這一切變成了現實。不要打字，跟它說話。開啟手機的語音模式。所以，
GPT、Gemini、Claude 這些聊天軟體都允許你大聲說話，而且都能和你進行自然的對話。你可以打斷它。您可以提出
[00:17:25.439] 改進我的表現。而接下來這一步，讓這一切變成了現實。不要打字，跟它說話。開啟手機的語音模式。所以，
GPT、Gemini、Claude 這些聊天軟體都允許你大聲說話，而且都能和你進行自然的對話。你可以打斷它。您可以提出
疑問以作澄清。這是一場真實的
[00:17:27.429] 疑問以作澄清。這是一場真實的
[00:17:27.439] 疑問以作澄清。這是一場真實的 對話。我散步時常常這樣做
[00:17:30.150] 對話。我散步時常常這樣做
[00:17:30.160] 對話。我散步時常常這樣做。表演結束後，我希望我
[00:17:32.870]。表演結束後，我希望我
[00:17:32.880]。表演結束後，我希望我 和經紀人都能打破角色扮演的狀態。我
[00:17:36.230] 和經紀人都能打破角色扮演的狀態。我
[00:17:36.240] 和經紀人都能打破角色扮演的狀態。我 會說：「好了，
[00:17:38.549] 會說：「好了，
[00:17:38.559] 會說：「好了， 面試結束了。現在你是我的面試
[00:17:40.870] 面試結束了。現在你是我的面試
[00:17:53.120]
指導老師。告訴我哪裡做得不好，哪裡出錯，我該怎麼說。告訴我哪裡跑題了。給我三種更好的回答方式。」輔導課程
[00:17:55.039]
指導老師。告訴我哪裡做得不好，哪裡出錯，我該怎麼說。告訴我哪裡跑題了。給我三種更好的回答方式。」輔導課程
結束後，現在你可以加強了。
[00:17:58.789] 結束後，現在你可以加強了。
[00:17:58.799] 結束後，現在你可以加強了。 賦予這位經紀人一個更嚴厲的
[00:18:01.909] 賦予這位經紀人一個更嚴厲的
[00:18:01.919] 賦予這位經紀人一個更嚴厲的 招募經理的形象。也許你應徵的是
[00:18:04.870] 招募經理的形象。也許你應徵的是
[00:18:04.880] 招募經理的形象。也許你應徵的是一家新創公司，而CEO會是
[00:18:07.510] 一家新創公司，而CEO會是
[00:18:07.520] 一家新創公司，而CEO會是 最後一個面試你的人。將這種角色設定
[00:18:09.750] 最後一個面試你的人。將這種角色設定
[00:18:09.760] 最後一個面試你的人。將這種角色設定 賦予代理人。讓代理人知道，
[00:18:12.950] 賦予代理人。讓代理人知道，
[00:18:12.960] 賦予代理人。讓代理人知道， 它應該以
[00:18:15.510] 它應該以
[00:18:15.520] 它應該以 該角色身份進行 45 分鐘的面試，並給你最後
[00:18:18.310] 該角色身份進行 45 分鐘的面試，並給你最後
[00:18:18.320] 該角色身份進行 45 分鐘的面試，並給你最後 15 分鐘的時間向
[00:18:21.029] 15 分鐘的時間向
[00:18:21.039] 15 分鐘的時間向 這位 CEO 提問，因為現實生活中也會發生這種情況
[00:18:24.150] 這位 CEO 提問，因為現實生活中也會發生這種情況
[00:18:24.160] 這位 CEO 提問，因為現實生活中也會發生這種情況。最後，當你完成
[00:18:26.950]。最後，當你完成
[00:18:26.960]。最後，當你完成 所有練習後，別忘了提問。

[00:18:30.230] 所有練習後，別忘了提問。

[00:18:30.240] 所有練習後，別忘了提問。請將你學到的知識整理成一張一頁的

[00:18:33.270] 請將你學到的知識整理成一張一頁的

[00:18:33.280] 請將你學到的知識整理成一張一頁的 準備卡片，以便我在面試前進行回顧

[00:18:36.150] 準備卡片，以便我在面試前進行回顧

[00:18:36.160] 準備卡片，以便我在面試前進行回顧。現在你有了

[00:18:37.990]。現在你有了

[00:18:38.000]。現在你有了 可以使用的東西。你的目標不是創造

[00:18:41.190] 可以使用的東西。你的目標不是創造

[00:19:14.720] 根據最近的一項調查，70%的 美國人認為人工智慧會減少就業

[00:19:18.310] 美國人認為人工智慧會減少就業

[00:19:18.320] 美國人認為人工智慧會減少就業 機會。在 Z 世代中，這一比例高達

[00:19:21.590] 機會。在 Z 世代中，這一比例高達

[00:19:21.600] 機會。在 Z 世代中，這一比例高達 81%。當然，有些工作崗位會因此受到影響。這

[00:19:26.549] 81%。當然，有些工作崗位會因此受到影響。這

[00:19:26.559] 81%。當然，有些工作崗位會因此受到影響。這 肯定會帶來一些痛苦

[00:19:28.870] 肯定會帶來一些痛苦

[00:19:28.880] 肯定會帶來一些痛苦。但

[00:19:33.270]。但

[00:19:33.280]。但 隨著時間的推移，人工智慧將會創造出更多更多的新工作。

[00:19:37.830] 隨著時間的推移，人工智慧將會創造出更多更多的新工作。

[00:19:37.840] 隨著時間的推移，人工智慧將會創造出更多更多的新工作。我們以前來過這裡。

[00:19:40.710] 我們以前來過這裡。

[00:19:40.720] 我們以前來過這裡。每個時代都認為機器

[00:19:44.230] 每個時代都認為機器

[00:19:44.240] 每個時代都認為機器 會吞噬人。查理

[00:19:46.950] 會吞噬人。查理

[00:19:46.960] 會吞噬人。查理 卓別林在現代就證明了這一點。1936年，有人

[00:19:50.310] 卓別林在現代就證明了這一點。1936年，有人

[00:19:50.320] 卓別林在現代就證明了這一點。1936年，有人 竟然真的把一個人拉進了工廠的齒輪裡。

[00:19:52.789] 竟然真的把一個人拉進了工廠的齒輪裡。

[00:19:52.799] 竟然真的把一個人拉進了工廠的齒輪裡。如果

[00:19:56.310] 如果

[00:19:56.320] 如果 比拼的是速度、記憶力或更高的

[00:20:01.110] 比拼的是速度、記憶力或更高的

[00:20:01.120] 比拼的是速度、記憶力或更高的 產量，機器每次都會獲勝

[00:20:04.549] 產量，機器每次都會獲勝

[00:20:04.559] 產量，機器每次都會獲勝。但我認為真正的競爭將

[00:20:07.830]。但我認為真正的競爭將

[00:20:07.840]。但我認為真正的競爭將 在於機器無法擁有的東西。

[00:20:11.669] 在於機器無法擁有的東西。

[00:20:11.679] 在於機器無法擁有的東西。你的專注力、你的創造力、

[00:20:15.110] 你的專注力、你的創造力、
[00:20:15.120] 你的專注力、你的創造力、 你的思考清晰度。
[00:20:17.190] 你的思考清晰度。
[00:20:17.200] 你的思考清晰度。而這一點，當
[00:20:19.430] 而這一點，當
[00:20:19.440] 而這一點，當 你建立事業、生活、
[00:20:21.590] 你建立事業、生活、
[00:20:21.600] 你建立事業、生活、 公司和判斷力時，才是最重要的。
[00:20:25.270] 公司和判斷力時，才是最重要的。
[00:20:25.280] 公司和判斷力時，才是最重要的。這就是我們討論的四大支柱
[00:20:27.270] 這就是我們討論的四大支柱
[00:20:27.280] 這就是我們討論的四大支柱。
[00:20:29.750] 。
[00:20:29.760] 。當然，機器會變得越來越
[00:20:31.750] 當然，機器會變得越來越
[00:20:31.760] 當然，機器會變得越來越 聰明、越來越快。
[00:20:35.029] 聰明、越來越快。
[00:20:35.039] 聰明、越來越快。讓他們
[00:20:36.870] 讓他們
[00:20:36.880] 讓他們 使用這些機器。你不必
[00:20:39.510] 使用這些機器。你不必
[00:20:39.520] 使用這些機器。你不必 成為其中一員。
[00:20:42.549] 成為其中一員。
[00:20:42.559] 成為其中一員。 下週見。謝謝你，我愛你

English (timed)

[00:00:00.240] Four AI agents you can build today that
[00:00:02.639] Four AI agents you can build today that will save you hours of work every week.
[00:00:05.110] will save you hours of work every week.
[00:00:05.120] will save you hours of work every week. You don't need any technical skills. If
[00:00:07.430] You don't need any technical skills. If
[00:00:07.440] You don't need any technical skills. If you can type, you can build them and
[00:00:09.270] you can type, you can build them and
[00:00:09.280] you can type, you can build them and start using them today. We'll do it
[00:00:11.030] start using them today. We'll do it
[00:00:11.040] start using them today. We'll do it together step by step. For those who are
[00:00:13.350] together step by step. For those who are
[00:00:13.360] together step by step. For those who are new here, I spent more than 20 years as
[00:00:15.910] new here, I spent more than 20 years as
[00:00:15.920] new here, I spent more than 20 years as a CEO, board member, and investor in
[00:00:18.950] a CEO, board member, and investor in
[00:00:18.960] a CEO, board member, and investor in tech and AI companies. And I use these
[00:00:21.670] tech and AI companies. And I use these
[00:00:21.680] tech and AI companies. And I use these agents in my work every day. They're
[00:00:23.750] agents in my work every day. They're
[00:00:23.760] agents in my work every day. They're gamechanging. But the agents are the
[00:00:26.390] gamechanging. But the agents are the
[00:00:26.400] gamechanging. But the agents are the easy part. You want to learn not just
[00:00:28.310] easy part. You want to learn not just
[00:00:28.320] easy part. You want to learn not just the tools but the way of thinking or the
[00:00:31.109] the tools but the way of thinking or the
[00:00:31.119] the tools but the way of thinking or the system that changes how you work with AI
[00:00:33.510] system that changes how you work with AI
[00:00:33.520] system that changes how you work with AI agents forever. And that system works on
[00:00:35.910] agents forever. And that system works on
[00:00:35.920] agents forever. And that system works on any AI claw, Gemini, Chad, JPT, you
[00:00:38.630] any AI claw, Gemini, Chad, JPT, you
[00:00:38.640] any AI claw, Gemini, Chad, JPT, you pick. We're going to build four agents
[00:00:40.790] pick. We're going to build four agents
[00:00:40.800] pick. We're going to build four agents around four pillars. I call it four C's
[00:00:43.350] around four pillars. I call it four C's
[00:00:43.360] around four pillars. I call it four C's framework. Coordination, creativity,
[00:00:46.470] framework. Coordination, creativity,
[00:00:46.480] framework. Coordination, creativity, clarity, and coaching. Each of these
[00:00:49.110] clarity, and coaching. Each of these
[00:00:49.120] clarity, and coaching. Each of these pillars make your life less chaotic and
[00:00:51.670] pillars make your life less chaotic and
[00:00:51.680] pillars make your life less chaotic and more productive. So, let's get to the
[00:00:53.910] more productive. So, let's get to the
[00:00:53.920] more productive. So, let's get to the first pillar. The first C is
[00:00:55.910] first pillar. The first C is
[00:00:55.920] first pillar. The first C is coordination because before anything
[00:00:58.150] coordination because before anything
[00:00:58.160] coordination because before anything else, AI should stop your day from
[00:01:01.189] else, AI should stop your day from
[00:01:01.199] else, AI should stop your day from getting hijacked. Microsoft studied how
[00:01:03.670] getting hijacked. Microsoft studied how
[00:01:03.680] getting hijacked. Microsoft studied how we actually work and the numbers are
[00:01:06.070] we actually work and the numbers are
[00:01:06.080] we actually work and the numbers are brutal. The average worker gets 117
[00:01:09.750] brutal. The average worker gets 117
[00:01:09.760] brutal. The average worker gets 117 emails a day, and we're interrupted
[00:01:12.469] emails a day, and we're interrupted
[00:01:12.479] emails a day, and we're interrupted every 2 minutes by an email or a meeting
[00:01:15.670] every 2 minutes by an email or a meeting
[00:01:15.680] every 2 minutes by an email or a meeting or a message. That's 275
[00:01:19.350] or a message. That's 275
[00:01:19.360] or a message. That's 275 times a day. And by the way, none of

[00:01:21.670] times a day. And by the way, none of
[00:01:21.680] times a day. And by the way, none of that counts the social media
[00:01:23.270] that counts the social media
[00:01:23.280] that counts the social media interruptions. Our attention gets
[00:01:25.590] interruptions. Our attention gets
[00:01:25.600] interruptions. Our attention gets chopped into pieces every day. So, let's
[00:01:29.109] chopped into pieces every day. So, let's
[00:01:29.119] chopped into pieces every day. So, let's build a coordination agent that reads
[00:01:31.510] build a coordination agent that reads
[00:01:31.520] build a coordination agent that reads your inbox, checks the calendar, plans
[00:01:34.630] your inbox, checks the calendar, plans
[00:01:34.640] your inbox, checks the calendar, plans your day, and gives you the time and
[00:01:36.950] your day, and gives you the time and
[00:01:36.960] your day, and gives you the time and attention back. We will start by
[00:01:39.030] attention back. We will start by
[00:01:39.040] attention back. We will start by building the email agent first, and then
[00:01:41.830] building the email agent first, and then
[00:01:41.840] building the email agent first, and then we'll add the calendar right after. For
[00:01:44.230] we'll add the calendar right after. For
[00:01:44.240] we'll add the calendar right after. For this walkthrough, I'm using Claude
[00:01:46.469] this walkthrough, I'm using Claude
[00:01:46.479] this walkthrough, I'm using Claude Co-work. Chat is where you ask
[00:01:48.710] Co-work. Chat is where you ask
[00:01:48.720] Co-work. Chat is where you ask questions. Co-work is where you assign
[00:01:51.749] questions. Co-work is where you assign
[00:01:51.759] questions. Co-work is where you assign work. But don't get hung up on the
[00:01:53.910] work. But don't get hung up on the
[00:01:53.920] work. But don't get hung up on the interface. If you use chat GPT or Gemini
[00:01:57.030] interface. If you use chat GPT or Gemini
[00:01:57.040] interface. If you use chat GPT or Gemini or any other agent tool, the same
[00:01:59.510] or any other agent tool, the same
[00:01:59.520] or any other agent tool, the same principles will work. The buttons will
[00:02:01.749] principles will work. The buttons will
[00:02:01.759] principles will work. The buttons will change, the workflow will not. So, okay,
[00:02:04.950] change, the workflow will not. So, okay,
[00:02:04.960] change, the workflow will not. So, okay, here's the Claude app. You can select
[00:02:06.870] here's the Claude app. You can select
[00:02:06.880] here's the Claude app. You can select the mode, whether you want to be in a
[00:02:09.029] the mode, whether you want to be in a
[00:02:09.039] the mode, whether you want to be in a chat tab or a co-work tab. Select
[00:02:12.070] chat tab or a co-work tab. Select
[00:02:12.080] chat tab or a co-work tab. Select co-work. And it switches you into tasks.
[00:02:16.150] co-work. And it switches you into tasks.
[00:02:16.160] co-work. And it switches you into tasks. That's where we will build agents. Now,
[00:02:19.030] That's where we will build agents. Now,
[00:02:19.040] That's where we will build agents. Now, we want to think about email. So, the
[00:02:21.030] we want to think about email. So, the
[00:02:21.040] we want to think about email. So, the first thing we're going to do is connect
[00:02:22.949] first thing we're going to do is connect
[00:02:22.959] first thing we're going to do is connect Gmail so the agent can reach and access
[00:02:26.390] Gmail so the agent can reach and access
[00:02:26.400] Gmail so the agent can reach and access your inbox. You do this from the plus
[00:02:29.589] your inbox. You do this from the plus
[00:02:29.599] your inbox. You do this from the plus menu, connectors, add connectors,
[00:02:33.270] menu, connectors, add connectors,
[00:02:33.280] menu, connectors, add connectors, browse, then select. And
[00:02:35.190] browse, then select. And
[00:02:35.200] browse, then select. And congratulations, this is your first leap
[00:02:38.070] congratulations, this is your first leap
[00:02:38.080] congratulations, this is your first leap from chatbot to agent. Once Gmail is
[00:02:41.270] from chatbot to agent. Once Gmail is
[00:02:41.280] from chatbot to agent. Once Gmail is connected, you no longer have to copy
[00:02:43.830] connected, you no longer have to copy
[00:02:43.840] connected, you no longer have to copy emails into your chat. You can say,

[00:02:45.910] emails into your chat. You can say,
[00:02:45.920] emails into your chat. You can say, "Summarize my unread emails from
[00:02:48.150] "Summarize my unread emails from
[00:02:48.160] "Summarize my unread emails from yesterday." and the agent knows where to
[00:02:50.150] yesterday." and the agent knows where to
[00:02:50.160] yesterday." and the agent knows where to go and what to do. And by the way, if
[00:02:52.309] go and what to do. And by the way, if
[00:02:52.319] go and what to do. And by the way, if you're little uneasy about letting AI
[00:02:55.830] you're little uneasy about letting AI
[00:02:55.840] you're little uneasy about letting AI into your inbox, that's a good sign.
[00:02:58.790] into your inbox, that's a good sign.
[00:02:58.800] into your inbox, that's a good sign. Trust your hesitation. When you connect
[00:03:01.190] Trust your hesitation. When you connect
[00:03:01.200] Trust your hesitation. When you connect Gmail, Google shows you exactly what
[00:03:04.470] Gmail, Google shows you exactly what
[00:03:04.480] Gmail, Google shows you exactly what permissions you're giving it. Read it.
[00:03:06.869] permissions you're giving it. Read it.
[00:03:06.879] permissions you're giving it. Read it. Don't click through it blindly. For the
[00:03:09.270] Don't click through it blindly. For the
[00:03:09.280] Don't click through it blindly. For the first demo, I want the agent to read and
[00:03:12.790] first demo, I want the agent to read and
[00:03:12.800] first demo, I want the agent to read and draft emails, not send them. Now, we
[00:03:16.070] draft emails, not send them. Now, we
[00:03:16.080] draft emails, not send them. Now, we write the prompt. same plain English you
[00:03:18.710] write the prompt. same plain English you
[00:03:18.720] write the prompt. same plain English you would type in chat. The difference is
[00:03:20.949] would type in chat. The difference is
[00:03:20.959] would type in chat. The difference is that now you're handing it a job. The
[00:03:23.350] that now you're handing it a job. The
[00:03:23.360] that now you're handing it a job. The prompt has five parts. The job, the
[00:03:26.229] prompt has five parts. The job, the
[00:03:26.239] prompt has five parts. The job, the tool, the categories, the output, and
[00:03:29.350] tool, the categories, the output, and
[00:03:29.360] tool, the categories, the output, and the boundary. You could say something
[00:03:31.190] the boundary. You could say something
[00:03:31.200] the boundary. You could say something like, "Review my unread Gmail from the
[00:03:33.990] like, "Review my unread Gmail from the
[00:03:34.000] like, "Review my unread Gmail from the last 24 hours. Sort it into three
[00:03:36.390] last 24 hours. Sort it into three
[00:03:36.400] last 24 hours. Sort it into three buckets: urgent, informational, and
[00:03:39.030] buckets: urgent, informational, and
[00:03:39.040] buckets: urgent, informational, and ignore." For anything urgent, draft a
[00:03:41.589] ignore." For anything urgent, draft a
[00:03:41.599] ignore." For anything urgent, draft a reply that sounds like me. Don't send
[00:03:43.750] reply that sounds like me. Don't send
[00:03:43.760] reply that sounds like me. Don't send anything without my approval. Notice the
[00:03:45.830] anything without my approval. Notice the
[00:03:45.840] anything without my approval. Notice the five parts in that one sentence. The
[00:03:48.550] five parts in that one sentence. The
[00:03:48.560] five parts in that one sentence. The job, the tool, the buckets, the output,
[00:03:52.710] job, the tool, the buckets, the output,
[00:03:52.720] job, the tool, the buckets, the output, and the boundary. Now underneath, every
[00:03:55.830] and the boundary. Now underneath, every
[00:03:55.840] and the boundary. Now underneath, every agent runs the same loop. It reasons, it
[00:03:59.030] agent runs the same loop. It reasons, it
[00:03:59.040] agent runs the same loop. It reasons, it acts, it looks at the output and reasons
[00:04:02.070] acts, it looks at the output and reasons
[00:04:02.080] acts, it looks at the output and reasons again. Researchers have a name for it.
[00:04:05.190] again. Researchers have a name for it.
[00:04:05.200] again. Researchers have a name for it. React. Reason and act. But email is only
[00:04:09.830] React. Reason and act. But email is only
[00:04:09.840] React. Reason and act. But email is only half of our coordination agent. Correct.
[00:04:12.229] half of our coordination agent. Correct.
[00:04:12.239] half of our coordination agent. Correct. Once we've used the email agent for a

[00:04:15.190] Once we've used the email agent for a
[00:04:15.200] Once we've used the email agent for a few days or maybe even a few weeks,
[00:04:17.670] few days or maybe even a few weeks,
[00:04:17.680] few days or maybe even a few weeks, we're getting comfortable now. We're
[00:04:19.590] we're getting comfortable now. We're
[00:04:19.600] we're getting comfortable now. We're ready to add the second coordination
[00:04:21.830] ready to add the second coordination
[00:04:21.840] ready to add the second coordination layer, calendar. Now for the walk
[00:04:23.990] layer, calendar. Now for the walk
[00:04:24.000] layer, calendar. Now for the walk through, same path as Gmail. Plus menu,
[00:04:27.189] through, same path as Gmail. Plus menu,
[00:04:27.199] through, same path as Gmail. Plus menu, connectors, add connectors. This time,
[00:04:31.110] connectors, add connectors. This time,
[00:04:31.120] connectors, add connectors. This time, select Google calendar to connect to
[00:04:34.070] select Google calendar to connect to
[00:04:34.080] select Google calendar to connect to Google Calendar. Again, I'm not giving
[00:04:36.790] Google Calendar. Again, I'm not giving
[00:04:36.800] Google Calendar. Again, I'm not giving the agent permission to move meetings or
[00:04:39.990] the agent permission to move meetings or
[00:04:40.000] the agent permission to move meetings or change my day without my approval, at
[00:04:42.790] change my day without my approval, at
[00:04:42.800] change my day without my approval, at least in the beginning. Here's what I
[00:04:44.950] least in the beginning. Here's what I
[00:04:44.960] least in the beginning. Here's what I would prompt. Look at my Google calendar
[00:04:47.189] would prompt. Look at my Google calendar
[00:04:47.199] would prompt. Look at my Google calendar for today and tomorrow. Compare it
[00:04:49.830] for today and tomorrow. Compare it
[00:04:49.840] for today and tomorrow. Compare it against all the urgent emails that you
[00:04:52.150] against all the urgent emails that you
[00:04:52.160] against all the urgent emails that you found. Organize my day by telling me
[00:04:55.110] found. Organize my day by telling me
[00:04:55.120] found. Organize my day by telling me what creates conflict in my schedule,
[00:04:57.350] what creates conflict in my schedule,
[00:04:57.360] what creates conflict in my schedule, what needs an action or prep before a
[00:04:59.749] what needs an action or prep before a
[00:04:59.759] what needs an action or prep before a meeting, and what can wait. This is the
[00:05:02.390] meeting, and what can wait. This is the
[00:05:02.400] meeting, and what can wait. This is the moment the email and calendar start
[00:05:05.670] moment the email and calendar start
[00:05:05.680] moment the email and calendar start collaborating with each other. Now the
[00:05:08.310] collaborating with each other. Now the
[00:05:08.320] collaborating with each other. Now the agent starts helping me shape my day.
[00:05:11.189] agent starts helping me shape my day.
[00:05:11.199] agent starts helping me shape my day. Once I run both these email and calendar
[00:05:13.830] Once I run both these email and calendar
[00:05:13.840] Once I run both these email and calendar versions a few times and I trust both
[00:05:16.870] versions a few times and I trust both
[00:05:16.880] versions a few times and I trust both outputs, I can schedule the full
[00:05:19.430] outputs, I can schedule the full
[00:05:19.440] outputs, I can schedule the full coordination run every morning. And from
[00:05:21.749] coordination run every morning. And from
[00:05:21.759] coordination run every morning. And from that point onward, every morning you'll
[00:05:24.550] that point onward, every morning you'll
[00:05:24.560] that point onward, every morning you'll know exactly what your day is going to
[00:05:26.710] know exactly what your day is going to
[00:05:26.720] know exactly what your day is going to look like. In co-work, you do this by
[00:05:29.350] look like. In co-work, you do this by
[00:05:29.360] look like. In co-work, you do this by going to the schedule tab in the sidebar
[00:05:32.150] going to the schedule tab in the sidebar
[00:05:32.160] going to the schedule tab in the sidebar or using the schedule command inside a
[00:05:34.629] or using the schedule command inside a
[00:05:34.639] or using the schedule command inside a task. Of course, be careful about
[00:05:36.950] task. Of course, be careful about
[00:05:36.960] task. Of course, be careful about scheduling anything that touches

[00:05:38.870] scheduling anything that touches
[00:05:38.880] scheduling anything that touches sensitive data or acts on your behalf
[00:05:41.670] sensitive data or acts on your behalf
[00:05:41.680] sensitive data or acts on your behalf without your approval. And then as you
[00:05:44.390] without your approval. And then as you
[00:05:44.400] without your approval. And then as you get more comfortable, you can promote
[00:05:46.550] get more comfortable, you can promote
[00:05:46.560] get more comfortable, you can promote this agent as your executive assistant.
[00:05:49.430] this agent as your executive assistant.
[00:05:49.440] this agent as your executive assistant. You can prompt, can you block two slots
[00:05:52.629] You can prompt, can you block two slots
[00:05:52.639] You can prompt, can you block two slots for 30 minutes each so I can go running
[00:05:54.710] for 30 minutes each so I can go running
[00:05:54.720] for 30 minutes each so I can go running with my buddy? the agent will find time
[00:05:57.189] with my buddy? the agent will find time
[00:05:57.199] with my buddy? the agent will find time for you so you can do things you want to
[00:05:59.430] for you so you can do things you want to
[00:05:59.440] for you so you can do things you want to do on your busy day. So that's your
[00:06:02.150] do on your busy day. So that's your
[00:06:02.160] do on your busy day. So that's your coordination agent. The first lesson,
[00:06:05.270] coordination agent. The first lesson,
[00:06:05.280] coordination agent. The first lesson, don't delegate the decision immediately.
[00:06:08.469] don't delegate the decision immediately.
[00:06:08.479] don't delegate the decision immediately. First make the work visible, then make
[00:06:11.350] First make the work visible, then make
[00:06:11.360] First make the work visible, then make it efficient, then make it automatic,
[00:06:14.230] it efficient, then make it automatic,
[00:06:14.240] it efficient, then make it automatic, and then and only then use your judgment
[00:06:17.670] and then and only then use your judgment
[00:06:17.680] and then and only then use your judgment to delegate and hand off slowly. And the
[00:06:20.950] to delegate and hand off slowly. And the
[00:06:20.960] to delegate and hand off slowly. And the second lesson is to not hurry through
[00:06:24.230] second lesson is to not hurry through
[00:06:24.240] second lesson is to not hurry through this process. Start with email, add
[00:06:28.070] this process. Start with email, add
[00:06:28.080] this process. Start with email, add calendar later after you trust the
[00:06:30.629] calendar later after you trust the
[00:06:30.639] calendar later after you trust the output. Let your agent earn higher
[00:06:34.070] output. Let your agent earn higher
[00:06:34.080] output. Let your agent earn higher responsibility one step at a time. You
[00:06:36.629] responsibility one step at a time. You
[00:06:36.639] responsibility one step at a time. You know, we don't get promoted easily.
[00:06:39.029] know, we don't get promoted easily.
[00:06:39.039] know, we don't get promoted easily. Neither should your agent. And by the
[00:06:40.870] Neither should your agent. And by the
[00:06:40.880] Neither should your agent. And by the way, if you like these kind of
[00:06:42.629] way, if you like these kind of
[00:06:42.639] way, if you like these kind of frameworks and systems thinking, I write
[00:06:45.350] frameworks and systems thinking, I write
[00:06:45.360] frameworks and systems thinking, I write a newsletter that goes deep into these
[00:06:47.510] a newsletter that goes deep into these
[00:06:47.520] a newsletter that goes deep into these themes every Tuesday. One insight, one
[00:06:50.710] themes every Tuesday. One insight, one
[00:06:50.720] themes every Tuesday. One insight, one tool, one practice. Link is below and
[00:06:53.990] tool, one practice. Link is below and
[00:06:54.000] tool, one practice. Link is below and it's free. All right. Now it's time to
[00:06:56.230] it's free. All right. Now it's time to
[00:06:56.240] it's free. All right. Now it's time to move to the second pillar. C for
[00:06:58.870] move to the second pillar. C for
[00:06:58.880] move to the second pillar. C for creativity. Here you bring your rough
[00:07:01.589] creativity. Here you bring your rough
[00:07:01.599] creativity. Here you bring your rough cut, notes, documents, background, messy
[00:07:05.430] cut, notes, documents, background, messy
[00:07:05.440] cut, notes, documents, background, messy thoughts, whatever you already have. The

[00:07:08.070] thoughts, whatever you already have. The
[00:07:08.080] thoughts, whatever you already have. The agent helps assemble it into something
[00:07:10.950] agent helps assemble it into something
[00:07:10.960] agent helps assemble it into something you can judge. You're still the
[00:07:12.950] you can judge. You're still the
[00:07:12.960] you can judge. You're still the director. You own the decision. So let's
[00:07:16.150] director. You own the decision. So let's
[00:07:16.160] director. You own the decision. So let's do a walkthrough on how to build this
[00:07:18.390] do a walkthrough on how to build this
[00:07:18.400] do a walkthrough on how to build this agent. This time you're giving the agent
[00:07:21.430] agent. This time you're giving the agent
[00:07:21.440] agent. This time you're giving the agent your rough cut and a target. It is the
[00:07:24.150] your rough cut and a target. It is the
[00:07:24.160] your rough cut and a target. It is the same prompt skeleton from the last
[00:07:26.230] same prompt skeleton from the last
[00:07:26.240] same prompt skeleton from the last agent. The job, the tool, the
[00:07:28.309] agent. The job, the tool, the
[00:07:28.319] agent. The job, the tool, the categories, the output, the boundary.
[00:07:30.710] categories, the output, the boundary.
[00:07:30.720] categories, the output, the boundary. And for this particular agent, the
[00:07:33.110] And for this particular agent, the
[00:07:33.120] And for this particular agent, the output is where you focus the most
[00:07:35.350] output is where you focus the most
[00:07:35.360] output is where you focus the most because that's where you're going to
[00:07:36.629] because that's where you're going to
[00:07:36.639] because that's where you're going to define who it's for, how long, what
[00:07:39.350] define who it's for, how long, what
[00:07:39.360] define who it's for, how long, what format, what voice. Okay. So, let's use
[00:07:42.230] format, what voice. Okay. So, let's use
[00:07:42.240] format, what voice. Okay. So, let's use this creativity agent to make a
[00:07:44.230] this creativity agent to make a
[00:07:44.240] this creativity agent to make a PowerPoint presentation. I open Claude
[00:07:46.950] PowerPoint presentation. I open Claude
[00:07:46.960] PowerPoint presentation. I open Claude Cowwork on my desktop and point it to a
[00:07:50.550] Cowwork on my desktop and point it to a
[00:07:50.560] Cowwork on my desktop and point it to a folder on my computer. That folder is
[00:07:53.589] folder on my computer. That folder is
[00:07:53.599] folder on my computer. That folder is where I drop my rough notes and it's
[00:07:56.070] where I drop my rough notes and it's
[00:07:56.080] where I drop my rough notes and it's where the finished deck will be created
[00:07:58.629] where the finished deck will be created
[00:07:58.639] where the finished deck will be created as well. I give it the notes and tell it
[00:08:01.110] as well. I give it the notes and tell it
[00:08:01.120] as well. I give it the notes and tell it what I want. Here are my notes for an
[00:08:03.510] what I want. Here are my notes for an
[00:08:03.520] what I want. Here are my notes for an idea. I want to pitch this to the CFO.
[00:08:07.350] idea. I want to pitch this to the CFO.
[00:08:07.360] idea. I want to pitch this to the CFO. Build me a short pitch deck. Ask me
[00:08:09.830] Build me a short pitch deck. Ask me
[00:08:09.840] Build me a short pitch deck. Ask me questions if you have any gaps in your
[00:08:11.909] questions if you have any gaps in your
[00:08:11.919] questions if you have any gaps in your understanding. I want eight to 10 slides
[00:08:15.589] understanding. I want eight to 10 slides
[00:08:15.599] understanding. I want eight to 10 slides and I want that pitch to last for maybe
[00:08:18.309] and I want that pitch to last for maybe
[00:08:18.319] and I want that pitch to last for maybe 15 minutes. It will read my notes. It'll
[00:08:20.950] 15 minutes. It will read my notes. It'll
[00:08:20.960] 15 minutes. It will read my notes. It'll ask me questions if it has any. It'll
[00:08:23.350] ask me questions if it has any. It'll
[00:08:23.360] ask me questions if it has any. It'll even fill the gaps with a little
[00:08:25.430] even fill the gaps with a little
[00:08:25.440] even fill the gaps with a little research and build the actual deck. What
[00:08:29.589] research and build the actual deck. What
[00:08:29.599] research and build the actual deck. What comes out is a real PowerPoint file that

[00:08:32.630] comes out is a real PowerPoint file that
[00:08:32.640] comes out is a real PowerPoint file that I can open and edit in Microsoft
[00:08:35.269] I can open and edit in Microsoft
[00:08:35.279] I can open and edit in Microsoft PowerPoint. Now I can direct. I see
[00:08:38.389] PowerPoint. Now I can direct. I see
[00:08:38.399] PowerPoint. Now I can direct. I see what's working, what's weak. I can tell
[00:08:40.630] what's working, what's weak. I can tell
[00:08:40.640] what's working, what's weak. I can tell the agent what to change. Make this
[00:08:43.589] the agent what to change. Make this
[00:08:43.599] the agent what to change. Make this longer, make this shorter, make this a
[00:08:46.389] longer, make this shorter, make this a
[00:08:46.399] longer, make this shorter, make this a three bullet slide. Can we make the
[00:08:48.310] three bullet slide. Can we make the
[00:08:48.320] three bullet slide. Can we make the opening slide cleaner? Delete this
[00:08:50.790] opening slide cleaner? Delete this
[00:08:50.800] opening slide cleaner? Delete this slide. Whatever comes to mind. The agent
[00:08:53.430] slide. Whatever comes to mind. The agent
[00:08:53.440] slide. Whatever comes to mind. The agent will help you rebuild. Now, this deck
[00:08:55.590] will help you rebuild. Now, this deck
[00:08:55.600] will help you rebuild. Now, this deck came out as a real file because Claude
[00:08:58.150] came out as a real file because Claude
[00:08:58.160] came out as a real file because Claude uses something called a skill. That's
[00:09:00.630] uses something called a skill. That's
[00:09:00.640] uses something called a skill. That's just a set of instructions for doing a
[00:09:03.110] just a set of instructions for doing a
[00:09:03.120] just a set of instructions for doing a specific job. It ships with skills for
[00:09:05.829] specific job. It ships with skills for
[00:09:05.839] specific job. It ships with skills for PowerPoint, Word, Excel, PDFs, which is
[00:09:09.910] PowerPoint, Word, Excel, PDFs, which is
[00:09:09.920] PowerPoint, Word, Excel, PDFs, which is why you get real files. Now, what if you
[00:09:12.470] why you get real files. Now, what if you
[00:09:12.480] why you get real files. Now, what if you want to change the look and feel? Well,
[00:09:13.990] want to change the look and feel? Well,
[00:09:14.000] want to change the look and feel? Well, you can drop one of the decks that you
[00:09:15.750] you can drop one of the decks that you
[00:09:15.760] you can drop one of the decks that you like and ask the agent to match that
[00:09:17.829] like and ask the agent to match that
[00:09:17.839] like and ask the agent to match that style. Another cool way of doing it is
[00:09:20.070] style. Another cool way of doing it is
[00:09:20.080] style. Another cool way of doing it is that you can even ask the agent to turn
[00:09:22.310] that you can even ask the agent to turn
[00:09:22.320] that you can even ask the agent to turn your brand template into a skill. From
[00:09:24.870] your brand template into a skill. From
[00:09:24.880] your brand template into a skill. From that point, the agent will then always
[00:09:27.030] that point, the agent will then always
[00:09:27.040] that point, the agent will then always apply the same colors, the same fonts,
[00:09:29.910] apply the same colors, the same fonts,
[00:09:29.920] apply the same colors, the same fonts, the same layout to every deck and
[00:09:32.070] the same layout to every deck and
[00:09:32.080] the same layout to every deck and document you'll ever make. Now, this is
[00:09:34.310] document you'll ever make. Now, this is
[00:09:34.320] document you'll ever make. Now, this is just one example of using skills. You
[00:09:37.430] just one example of using skills. You
[00:09:37.440] just one example of using skills. You can come up with hundred others. We're
[00:09:39.509] can come up with hundred others. We're
[00:09:39.519] can come up with hundred others. We're not just learning tools here. We're
[00:09:41.430] not just learning tools here. We're
[00:09:41.440] not just learning tools here. We're learning a new way of thinking. Now,
[00:09:43.910] learning a new way of thinking. Now,
[00:09:43.920] learning a new way of thinking. Now, make sure that the ultimate direction
[00:09:46.389] make sure that the ultimate direction
[00:09:46.399] make sure that the ultimate direction comes from you. These agents are your
[00:09:49.030] comes from you. These agents are your
[00:09:49.040] comes from you. These agents are your multipliers. If you come in clear, AI

[00:09:51.750] multipliers. If you come in clear, AI
[00:09:51.760] multipliers. If you come in clear, AI will multiply your clarity. If you come
[00:09:53.829] will multiply your clarity. If you come
[00:09:53.839] will multiply your clarity. If you come in confused, well, the AI multiplies the
[00:09:57.110] in confused, well, the AI multiplies the
[00:09:57.120] in confused, well, the AI multiplies the confusion. And the best way to create
[00:09:58.790] confusion. And the best way to create
[00:09:58.800] confusion. And the best way to create that clarity is to do a lot of
[00:10:01.190] that clarity is to do a lot of
[00:10:01.200] that clarity is to do a lot of experiments and figure out what's the
[00:10:03.990] experiments and figure out what's the
[00:10:04.000] experiments and figure out what's the best way to tweak your output and even
[00:10:06.630] best way to tweak your output and even
[00:10:06.640] best way to tweak your output and even your agents. And over time, you'll build
[00:10:09.829] your agents. And over time, you'll build
[00:10:09.839] your agents. And over time, you'll build a very strong intuition to get what you
[00:10:13.750] a very strong intuition to get what you
[00:10:13.760] a very strong intuition to get what you want. But what if you're spending hours
[00:10:16.069] want. But what if you're spending hours
[00:10:16.079] want. But what if you're spending hours trying to understand a confusing and
[00:10:18.630] trying to understand a confusing and
[00:10:18.640] trying to understand a confusing and complex document? What if you need
[00:10:20.870] complex document? What if you need
[00:10:20.880] complex document? What if you need clarity to even understand what's going
[00:10:22.949] clarity to even understand what's going
[00:10:22.959] clarity to even understand what's going on in that document? That's our third
[00:10:25.829] on in that document? That's our third
[00:10:25.839] on in that document? That's our third time-saving pillar. C for clarity. We've
[00:10:29.910] time-saving pillar. C for clarity. We've
[00:10:29.920] time-saving pillar. C for clarity. We've all signed things we didn't understand.
[00:10:32.230] all signed things we didn't understand.
[00:10:32.240] all signed things we didn't understand. A loan contract, a car lease, a medical
[00:10:35.509] A loan contract, a car lease, a medical
[00:10:35.519] A loan contract, a car lease, a medical report, an insurance policy. It's all
[00:10:38.230] report, an insurance policy. It's all
[00:10:38.240] report, an insurance policy. It's all right there. It's correct, but it's so
[00:10:41.910] right there. It's correct, but it's so
[00:10:41.920] right there. It's correct, but it's so confusing because many of these
[00:10:43.990] confusing because many of these
[00:10:44.000] confusing because many of these documents are written in a language
[00:10:46.310] documents are written in a language
[00:10:46.320] documents are written in a language built to protect those who wrote them.
[00:10:49.030] built to protect those who wrote them.
[00:10:49.040] built to protect those who wrote them. That's where the clarity agent will save
[00:10:51.110] That's where the clarity agent will save
[00:10:51.120] That's where the clarity agent will save you a ton of time and hassle. is your
[00:10:53.750] you a ton of time and hassle. is your
[00:10:53.760] you a ton of time and hassle. is your translator and that's what we're going
[00:10:55.509] translator and that's what we're going
[00:10:55.519] translator and that's what we're going to build. The best way to understand
[00:10:57.590] to build. The best way to understand
[00:10:57.600] to build. The best way to understand what we're building is to think about
[00:10:59.990] what we're building is to think about
[00:11:00.000] what we're building is to think about two scopes, a telescope and a
[00:11:03.030] two scopes, a telescope and a
[00:11:03.040] two scopes, a telescope and a microscope. Sometimes what you're
[00:11:05.670] microscope. Sometimes what you're
[00:11:05.680] microscope. Sometimes what you're looking for is scattered across so many
[00:11:08.550] looking for is scattered across so many
[00:11:08.560] looking for is scattered across so many places that you need the agent to pull
[00:11:11.350] places that you need the agent to pull
[00:11:11.360] places that you need the agent to pull it all together. And sometimes it's the
[00:11:13.910] it all together. And sometimes it's the
[00:11:13.920] it all together. And sometimes it's the exact opposite. Sometimes what you're

[00:11:15.910] exact opposite. Sometimes what you're
[00:11:15.920] exact opposite. Sometimes what you're looking for is buried so deep in a
[00:11:19.110] looking for is buried so deep in a
[00:11:19.120] looking for is buried so deep in a single dense document that the agent has
[00:11:22.310] single dense document that the agent has
[00:11:22.320] single dense document that the agent has to dig in, extract the key ideas,
[00:11:25.430] to dig in, extract the key ideas,
[00:11:25.440] to dig in, extract the key ideas, explain the jargon, flag the risk. That
[00:11:28.470] explain the jargon, flag the risk. That
[00:11:28.480] explain the jargon, flag the risk. That is your microscope. So let's go through
[00:11:31.030] is your microscope. So let's go through
[00:11:31.040] is your microscope. So let's go through both of them and build both ideas. Say
[00:11:33.910] both of them and build both ideas. Say
[00:11:33.920] both of them and build both ideas. Say I'm about to sign a deal with a company
[00:11:36.870] I'm about to sign a deal with a company
[00:11:36.880] I'm about to sign a deal with a company I don't know well. So I can tell the
[00:11:39.110] I don't know well. So I can tell the
[00:11:39.120] I don't know well. So I can tell the agent, find out who they are. Find out
[00:11:41.829] agent, find out who they are. Find out
[00:11:41.839] agent, find out who they are. Find out everything you can from the internet.
[00:11:43.829] everything you can from the internet.
[00:11:43.839] everything you can from the internet. analyze our past emails with them
[00:11:46.310] analyze our past emails with them
[00:11:46.320] analyze our past emails with them because hey, we've already built our
[00:11:48.790] because hey, we've already built our
[00:11:48.800] because hey, we've already built our coordination agent. Remember, find out
[00:11:51.190] coordination agent. Remember, find out
[00:11:51.200] coordination agent. Remember, find out anything recent in the news and tell me
[00:11:54.710] anything recent in the news and tell me
[00:11:54.720] anything recent in the news and tell me more about this deal that I'm trying to
[00:11:57.190] more about this deal that I'm trying to
[00:11:57.200] more about this deal that I'm trying to strike with them. And if I have uploaded
[00:11:59.829] strike with them. And if I have uploaded
[00:11:59.839] strike with them. And if I have uploaded documents, the agent will search all my
[00:12:02.710] documents, the agent will search all my
[00:12:02.720] documents, the agent will search all my documents, all my connected tools, my
[00:12:06.069] documents, all my connected tools, my
[00:12:06.079] documents, all my connected tools, my Google Drive, and the web and come back
[00:12:09.509] Google Drive, and the web and come back
[00:12:09.519] Google Drive, and the web and come back with one picture. And what if I want to
[00:12:12.389] with one picture. And what if I want to
[00:12:12.399] with one picture. And what if I want to know more about their product or
[00:12:14.550] know more about their product or
[00:12:14.560] know more about their product or competitive strategy? We let the agent
[00:12:17.190] competitive strategy? We let the agent
[00:12:17.200] competitive strategy? We let the agent do the work for us. And the prompt could
[00:12:19.350] do the work for us. And the prompt could
[00:12:19.360] do the work for us. And the prompt could be now go and do deep research on their
[00:12:22.470] be now go and do deep research on their
[00:12:22.480] be now go and do deep research on their core product from reliable sources.
[00:12:25.269] core product from reliable sources.
[00:12:25.279] core product from reliable sources. Create a document in my folder and site
[00:12:28.310] Create a document in my folder and site
[00:12:28.320] Create a document in my folder and site the sources. Cloud co-work agents
[00:12:30.870] the sources. Cloud co-work agents
[00:12:30.880] the sources. Cloud co-work agents already have web search and deep
[00:12:33.110] already have web search and deep
[00:12:33.120] already have web search and deep research built in. Same for Geminina and
[00:12:35.990] research built in. Same for Geminina and
[00:12:36.000] research built in. Same for Geminina and Chat GPT. The interface may look
[00:12:38.710] Chat GPT. The interface may look
[00:12:38.720] Chat GPT. The interface may look different, but it's the same idea. Two
[00:12:41.030] different, but it's the same idea. Two
[00:12:41.040] different, but it's the same idea. Two phrases I use the most when I work in

[00:12:44.069] phrases I use the most when I work in
[00:12:44.079] phrases I use the most when I work in telescope mode. Please verify and be
[00:12:47.910] telescope mode. Please verify and be
[00:12:47.920] telescope mode. Please verify and be concise. They can be super helpful.
[00:12:50.790] concise. They can be super helpful.
[00:12:50.800] concise. They can be super helpful. Sometimes I take the research output
[00:12:53.269] Sometimes I take the research output
[00:12:53.279] Sometimes I take the research output from one AI engine to another one and
[00:12:56.389] from one AI engine to another one and
[00:12:56.399] from one AI engine to another one and make sure I can crossverify. That is my
[00:12:59.590] make sure I can crossverify. That is my
[00:12:59.600] make sure I can crossverify. That is my advisory board and there are three
[00:13:01.750] advisory board and there are three
[00:13:01.760] advisory board and there are three members in it. Claude, Gemini, and Chad
[00:13:05.190] members in it. Claude, Gemini, and Chad
[00:13:05.200] members in it. Claude, Gemini, and Chad GBT. and sometimes they fight among
[00:13:07.350] GBT. and sometimes they fight among
[00:13:07.360] GBT. and sometimes they fight among themselves, which is great for me. Now,
[00:13:09.829] themselves, which is great for me. Now,
[00:13:09.839] themselves, which is great for me. Now, it's time to change our scope. We're
[00:13:11.829] it's time to change our scope. We're
[00:13:11.839] it's time to change our scope. We're going to use the microscope. Let's say
[00:13:14.389] going to use the microscope. Let's say
[00:13:14.399] going to use the microscope. Let's say we have a contract from the same
[00:13:16.230] we have a contract from the same
[00:13:16.240] we have a contract from the same company. I upload it. The first mistake
[00:13:19.509] company. I upload it. The first mistake
[00:13:19.519] company. I upload it. The first mistake most people make is asking summarize
[00:13:22.550] most people make is asking summarize
[00:13:22.560] most people make is asking summarize this contract. A summary makes a
[00:13:25.030] this contract. A summary makes a
[00:13:25.040] this contract. A summary makes a confusing document shorter. Sure, but in
[00:13:28.150] confusing document shorter. Sure, but in
[00:13:28.160] confusing document shorter. Sure, but in legal contracts or long policies, the
[00:13:31.350] legal contracts or long policies, the
[00:13:31.360] legal contracts or long policies, the devil is always in the details. So
[00:13:34.470] devil is always in the details. So
[00:13:34.480] devil is always in the details. So instead, my prompt would be read this
[00:13:38.230] instead, my prompt would be read this
[00:13:38.240] instead, my prompt would be read this document carefully. Find the key terms
[00:13:41.350] document carefully. Find the key terms
[00:13:41.360] document carefully. Find the key terms like fee structure and obligations and
[00:13:44.710] like fee structure and obligations and
[00:13:44.720] like fee structure and obligations and deadlines and exclusions and risks. Pay
[00:13:48.550] deadlines and exclusions and risks. Pay
[00:13:48.560] deadlines and exclusions and risks. Pay attention to anything that's unclear or
[00:13:52.310] attention to anything that's unclear or
[00:13:52.320] attention to anything that's unclear or anything that makes me liable. Create a
[00:13:55.430] anything that makes me liable. Create a
[00:13:55.440] anything that makes me liable. Create a table with five columns. what the
[00:13:57.910] table with five columns. what the
[00:13:57.920] table with five columns. what the contract says, what it means in plain
[00:14:00.629] contract says, what it means in plain
[00:14:00.639] contract says, what it means in plain English, why it matters, the risk level,
[00:14:04.790] English, why it matters, the risk level,
[00:14:04.800] English, why it matters, the risk level, and the questions I should be asking.
[00:14:07.430] and the questions I should be asking.
[00:14:07.440] and the questions I should be asking. Again, that's just one of many prompts
[00:14:09.750] Again, that's just one of many prompts
[00:14:09.760] Again, that's just one of many prompts you can give it. But you get the point.
[00:14:11.829] you can give it. But you get the point.
[00:14:11.839] you can give it. But you get the point. You want to break that document open,
[00:14:14.629] You want to break that document open,
[00:14:14.639] You want to break that document open, not get a bird's eye view on it. That's

[00:14:16.949] not get a bird's eye view on it. That's
[00:14:16.959] not get a bird's eye view on it. That's what agents can do for you. And now one
[00:14:19.430] what agents can do for you. And now one
[00:14:19.440] what agents can do for you. And now one more important thing. Your mileage may
[00:14:23.350] more important thing. Your mileage may
[00:14:23.360] more important thing. Your mileage may vary, but I personally don't like
[00:14:26.150] vary, but I personally don't like
[00:14:26.160] vary, but I personally don't like uploading sensitive information like
[00:14:29.350] uploading sensitive information like
[00:14:29.360] uploading sensitive information like personal financial data or medical
[00:14:32.230] personal financial data or medical
[00:14:32.240] personal financial data or medical reports. So be mindful about all of
[00:14:35.189] reports. So be mindful about all of
[00:14:35.199] reports. So be mindful about all of that. All right, we're on to the fourth
[00:14:37.430] that. All right, we're on to the fourth
[00:14:37.440] that. All right, we're on to the fourth pillar. This last agent helps you handle
[00:14:40.230] pillar. This last agent helps you handle
[00:14:40.240] pillar. This last agent helps you handle the moment once you're in the room. The
[00:14:42.710] the moment once you're in the room. The
[00:14:42.720] the moment once you're in the room. The interview, the raise, the pitch. With
[00:14:45.269] interview, the raise, the pitch. With
[00:14:45.279] interview, the raise, the pitch. With some conversations, you only get one
[00:14:47.430] some conversations, you only get one
[00:14:47.440] some conversations, you only get one shot. That's why you have to rehearse. I
[00:14:49.910] shot. That's why you have to rehearse. I
[00:14:49.920] shot. That's why you have to rehearse. I remember my first job interview. It was
[00:14:52.550] remember my first job interview. It was
[00:14:52.560] remember my first job interview. It was a long time ago and I had no idea what
[00:14:55.350] a long time ago and I had no idea what
[00:14:55.360] a long time ago and I had no idea what to do, what to wear. I didn't even know
[00:14:58.389] to do, what to wear. I didn't even know
[00:14:58.399] to do, what to wear. I didn't even know how to tie a tie. I don't think I even
[00:15:01.990] how to tie a tie. I don't think I even
[00:15:02.000] how to tie a tie. I don't think I even owned a tie. So, I asked my roommate if
[00:15:05.670] owned a tie. So, I asked my roommate if
[00:15:05.680] owned a tie. So, I asked my roommate if I could borrow his tie. His name was
[00:15:07.990] I could borrow his tie. His name was
[00:15:08.000] I could borrow his tie. His name was Mike Green. Awesome, awesome roommate.
[00:15:11.509] Mike Green. Awesome, awesome roommate.
[00:15:11.519] Mike Green. Awesome, awesome roommate. He said, "Sure, but do you know how to
[00:15:14.870] He said, "Sure, but do you know how to
[00:15:14.880] He said, "Sure, but do you know how to wear it?" and I shook my head and we
[00:15:17.829] wear it?" and I shook my head and we
[00:15:17.839] wear it?" and I shook my head and we both cracked up. So, he got a tie, tied
[00:15:20.870] both cracked up. So, he got a tie, tied
[00:15:20.880] both cracked up. So, he got a tie, tied it around his neck first, loosened it,
[00:15:23.430] it around his neck first, loosened it,
[00:15:23.440] it around his neck first, loosened it, and handed it to me and said, "Good
[00:15:26.150] and handed it to me and said, "Good
[00:15:26.160] and handed it to me and said, "Good luck." Of course, I walked in wearing a
[00:15:28.949] luck." Of course, I walked in wearing a
[00:15:28.959] luck." Of course, I walked in wearing a borrowed tie, but still had the same
[00:15:31.030] borrowed tie, but still had the same
[00:15:31.040] borrowed tie, but still had the same anxiety about my first interview. Turns
[00:15:33.189] anxiety about my first interview. Turns
[00:15:33.199] anxiety about my first interview. Turns out that when it comes to interview
[00:15:34.790] out that when it comes to interview
[00:15:34.800] out that when it comes to interview anxiety, I'm not alone. In a survey done
[00:15:37.750] anxiety, I'm not alone. In a survey done
[00:15:37.760] anxiety, I'm not alone. In a survey done by JDP, 93%
[00:15:40.790] by JDP, 93%
[00:15:40.800] by JDP, 93% of people said they get anxious about
[00:15:42.790] of people said they get anxious about
[00:15:42.800] of people said they get anxious about job interviews. That's almost all of us.

[00:15:45.350] job interviews. That's almost all of us.
[00:15:45.360] job interviews. That's almost all of us. But the survey also said something very
[00:15:47.430] But the survey also said something very
[00:15:47.440] But the survey also said something very useful. One of the best ways to reduce
[00:15:50.069] useful. One of the best ways to reduce
[00:15:50.079] useful. One of the best ways to reduce that anxiety is to practice that
[00:15:52.550] that anxiety is to practice that
[00:15:52.560] that anxiety is to practice that interview out loud. That's the whole
[00:15:54.949] interview out loud. That's the whole
[00:15:54.959] interview out loud. That's the whole point of the coaching agent. The first
[00:15:57.430] point of the coaching agent. The first
[00:15:57.440] point of the coaching agent. The first time you say the most important thing,
[00:15:59.829] time you say the most important thing,
[00:15:59.839] time you say the most important thing, you should not be in the most important
[00:16:01.670] you should not be in the most important
[00:16:01.680] you should not be in the most important room. We are going to build an agent
[00:16:03.910] room. We are going to build an agent
[00:16:03.920] room. We are going to build an agent that helps you rehearse. I know CEOs who
[00:16:07.189] that helps you rehearse. I know CEOs who
[00:16:07.199] that helps you rehearse. I know CEOs who rehearse their entire board meeting with
[00:16:10.150] rehearse their entire board meeting with
[00:16:10.160] rehearse their entire board meeting with six or seven agents where each agent is
[00:16:13.350] six or seven agents where each agent is
[00:16:13.360] six or seven agents where each agent is designed to mimic the personality of a
[00:16:15.990] designed to mimic the personality of a
[00:16:16.000] designed to mimic the personality of a specific board member. Yeah, it's that
[00:16:19.189] specific board member. Yeah, it's that
[00:16:19.199] specific board member. Yeah, it's that important. We will use job interview as
[00:16:21.590] important. We will use job interview as
[00:16:21.600] important. We will use job interview as an example as we build it, but you can
[00:16:24.069] an example as we build it, but you can
[00:16:24.079] an example as we build it, but you can use it for any professional or personal
[00:16:26.629] use it for any professional or personal
[00:16:26.639] use it for any professional or personal conversation or negotiations. Okay,
[00:16:29.189] conversation or negotiations. Okay,
[00:16:29.199] conversation or negotiations. Okay, first I add all the context. The company
[00:16:32.629] first I add all the context. The company
[00:16:32.639] first I add all the context. The company background, job description, my cover
[00:16:35.910] background, job description, my cover
[00:16:35.920] background, job description, my cover letter, my resume, my position
[00:16:38.470] letter, my resume, my position
[00:16:38.480] letter, my resume, my position statement, and so on. Second, we want to
[00:16:41.749] statement, and so on. Second, we want to
[00:16:41.759] statement, and so on. Second, we want to tell the agent who to be. You are the
[00:16:45.030] tell the agent who to be. You are the
[00:16:45.040] tell the agent who to be. You are the hiring manager for a senior product
[00:16:47.269] hiring manager for a senior product
[00:16:47.279] hiring manager for a senior product role. You are sharp, you're a little
[00:16:50.550] role. You are sharp, you're a little
[00:16:50.560] role. You are sharp, you're a little skeptical, and you've read my resume, so
[00:16:53.829] skeptical, and you've read my resume, so
[00:16:53.839] skeptical, and you've read my resume, so go ahead and interview me. ask one
[00:16:56.150] go ahead and interview me. ask one
[00:16:56.160] go ahead and interview me. ask one question at a time and push back on weak
[00:16:58.870] question at a time and push back on weak
[00:16:58.880] question at a time and push back on weak answers like a real interviewer would
[00:17:01.509] answers like a real interviewer would
[00:17:01.519] answers like a real interviewer would and keep track of our entire interview
[00:17:04.549] and keep track of our entire interview
[00:17:04.559] and keep track of our entire interview so we can analyze and improve my
[00:17:07.189] so we can analyze and improve my
[00:17:07.199] so we can analyze and improve my performance. And here's the move that
[00:17:09.669] performance. And here's the move that
[00:17:09.679] performance. And here's the move that makes it all real. Don't type it, talk

[00:17:12.789] makes it all real. Don't type it, talk
[00:17:12.799] makes it all real. Don't type it, talk to it. Turn on the voice mode on your
[00:17:15.909] to it. Turn on the voice mode on your
[00:17:15.919] to it. Turn on the voice mode on your phone. So chat GPT, Gemini, Claude, they
[00:17:19.189] phone. So chat GPT, Gemini, Claude, they
[00:17:19.199] phone. So chat GPT, Gemini, Claude, they all let you speak out loud and they all
[00:17:21.829] all let you speak out loud and they all
[00:17:21.839] all let you speak out loud and they all can have natural conversation with you.
[00:17:23.750] can have natural conversation with you.
[00:17:23.760] can have natural conversation with you. You can interrupt it. You can ask
[00:17:25.429] You can interrupt it. You can ask
[00:17:25.439] You can interrupt it. You can ask clarifying questions. It's a real
[00:17:27.429] clarifying questions. It's a real
[00:17:27.439] clarifying questions. It's a real conversation. I do this all the time on
[00:17:30.150] conversation. I do this all the time on
[00:17:30.160] conversation. I do this all the time on my walks. And when I'm done, I want both
[00:17:32.870] my walks. And when I'm done, I want both
[00:17:32.880] my walks. And when I'm done, I want both the agent and me to break character. I
[00:17:36.230] the agent and me to break character. I
[00:17:36.240] the agent and me to break character. I would say, "Okay, we're done with the
[00:17:38.549] would say, "Okay, we're done with the
[00:17:38.559] would say, "Okay, we're done with the interview. Now you're my interview
[00:17:40.870] interview. Now you're my interview
[00:17:40.880] interview. Now you're my interview coach. Tell me where I was weak, where I
[00:17:44.710] coach. Tell me where I was weak, where I
[00:17:44.720] coach. Tell me where I was weak, where I fumbled, what I should have said. Tell
[00:17:48.230] fumbled, what I should have said. Tell
[00:17:48.240] fumbled, what I should have said. Tell me where I rambled on. Give me three
[00:17:51.029] me where I rambled on. Give me three
[00:17:51.039] me where I rambled on. Give me three ways I could have answered that question
[00:17:53.110] ways I could have answered that question
[00:17:53.120] ways I could have answered that question better." And once the coaching session
[00:17:55.029] better." And once the coaching session
[00:17:55.039] better." And once the coaching session is over, now you can turn up the heat.
[00:17:58.789] is over, now you can turn up the heat.
[00:17:58.799] is over, now you can turn up the heat. Give that agent a persona of a tougher
[00:18:01.909] Give that agent a persona of a tougher
[00:18:01.919] Give that agent a persona of a tougher hiring manager. Maybe you're applying to
[00:18:04.870] hiring manager. Maybe you're applying to
[00:18:04.880] hiring manager. Maybe you're applying to a startup and the CEO will be the one
[00:18:07.510] a startup and the CEO will be the one
[00:18:07.520] a startup and the CEO will be the one interviewing you at the end. Give that
[00:18:09.750] interviewing you at the end. Give that
[00:18:09.760] interviewing you at the end. Give that persona to the agent. Let the agent know
[00:18:12.950] persona to the agent. Let the agent know
[00:18:12.960] persona to the agent. Let the agent know that it should conduct the interview in
[00:18:15.510] that it should conduct the interview in
[00:18:15.520] that it should conduct the interview in that persona for 45 minutes and give you
[00:18:18.310] that persona for 45 minutes and give you
[00:18:18.320] that persona for 45 minutes and give you the last 15 minutes to ask questions to
[00:18:21.029] the last 15 minutes to ask questions to
[00:18:21.039] the last 15 minutes to ask questions to that CEO because that will happen in
[00:18:24.150] that CEO because that will happen in
[00:18:24.160] that CEO because that will happen in real life. And finally, once you're done
[00:18:26.950] real life. And finally, once you're done
[00:18:26.960] real life. And finally, once you're done with all your reps, don't forget to ask.
[00:18:30.230] with all your reps, don't forget to ask.
[00:18:30.240] with all your reps, don't forget to ask. Turn what you've learned into a one-page
[00:18:33.270] Turn what you've learned into a one-page
[00:18:33.280] Turn what you've learned into a one-page prep card so I can review it before the
[00:18:36.150] prep card so I can review it before the
[00:18:36.160] prep card so I can review it before the interview. Now you have something you
[00:18:37.990] interview. Now you have something you
[00:18:38.000] interview. Now you have something you can use. Your goal here is not to create

[00:18:41.190] can use. Your goal here is not to create
[00:18:41.200] can use. Your goal here is not to create a set of scripted answers, but to build
[00:18:44.470] a set of scripted answers, but to build
[00:18:44.480] a set of scripted answers, but to build the capacity to deliver good answers no
[00:18:47.669] the capacity to deliver good answers no
[00:18:47.679] the capacity to deliver good answers no matter what the questions are. Like all
[00:18:50.310] matter what the questions are. Like all
[00:18:50.320] matter what the questions are. Like all great musicians, rehearsals teach you to
[00:18:53.510] great musicians, rehearsals teach you to
[00:18:53.520] great musicians, rehearsals teach you to build judgment and taste so you can
[00:18:56.549] build judgment and taste so you can
[00:18:56.559] build judgment and taste so you can become comfortable improvising on stage.
[00:18:59.350] become comfortable improvising on stage.
[00:18:59.360] become comfortable improvising on stage. So those are the four pillars. You know,
[00:19:02.870] So those are the four pillars. You know,
[00:19:02.880] So those are the four pillars. You know, as AI becomes more entangled in our
[00:19:06.950] as AI becomes more entangled in our
[00:19:06.960] as AI becomes more entangled in our lives, there's definitely a sense of
[00:19:09.029] lives, there's definitely a sense of
[00:19:09.039] lives, there's definitely a sense of fear running under all of this.
[00:19:11.350] fear running under all of this.
[00:19:11.360] fear running under all of this. According to a recent survey, 70% of
[00:19:14.710] According to a recent survey, 70% of
[00:19:14.720] According to a recent survey, 70% of Americans believe AI will shrink job
[00:19:18.310] Americans believe AI will shrink job
[00:19:18.320] Americans believe AI will shrink job opportunities. And among Gen Z, it is
[00:19:21.590] opportunities. And among Gen Z, it is
[00:19:21.600] opportunities. And among Gen Z, it is 81%. Sure, some jobs will be displaced.
[00:19:26.549] 81%. Sure, some jobs will be displaced.
[00:19:26.559] 81%. Sure, some jobs will be displaced. There will definitely be some pain
[00:19:28.870] There will definitely be some pain
[00:19:28.880] There will definitely be some pain around that. But many many more new jobs
[00:19:33.270] around that. But many many more new jobs
[00:19:33.280] around that. But many many more new jobs will be created over time because of AI.
[00:19:37.830] will be created over time because of AI.
[00:19:37.840] will be created over time because of AI. We have been here before.
[00:19:40.710] We have been here before.
[00:19:40.720] We have been here before. Every age has believed that the machine
[00:19:44.230] Every age has believed that the machine
[00:19:44.240] Every age has believed that the machine would swallow the person. Charlie
[00:19:46.950] would swallow the person. Charlie
[00:19:46.960] would swallow the person. Charlie Chaplan showed it in modern times. A man
[00:19:50.310] Chaplan showed it in modern times. A man
[00:19:50.320] Chaplan showed it in modern times. A man literally pulled into the gears of a
[00:19:52.789] literally pulled into the gears of a
[00:19:52.799] literally pulled into the gears of a factory and that was made in 1936. If
[00:19:56.310] factory and that was made in 1936. If
[00:19:56.320] factory and that was made in 1936. If the contest is speed, memory or faster
[00:20:01.110] the contest is speed, memory or faster
[00:20:01.120] the contest is speed, memory or faster output, machines will win every single
[00:20:04.549] output, machines will win every single
[00:20:04.559] output, machines will win every single time. But I think the real contest will
[00:20:07.830] time. But I think the real contest will
[00:20:07.840] time. But I think the real contest will be about the things machines cannot own.
[00:20:11.669] be about the things machines cannot own.
[00:20:11.679] be about the things machines cannot own. Your attention, your creativity,
[00:20:15.110] Your attention, your creativity,
[00:20:15.120] Your attention, your creativity, your clarity.
[00:20:17.190] your clarity.
[00:20:17.200] your clarity. And that one thing that matters most
[00:20:19.430] And that one thing that matters most
[00:20:19.440] And that one thing that matters most when you build your career, your life,
[00:20:21.590] when you build your career, your life,
[00:20:21.600] when you build your career, your life, your company, your judgment.

[00:20:25.270] your company, your judgment.
[00:20:25.280] your company, your judgment. Those are the four pillars we talked
[00:20:27.270] Those are the four pillars we talked
[00:20:27.280] Those are the four pillars we talked about.
[00:20:29.750] about.
[00:20:29.760] about. Sure, the machines will keep getting
[00:20:31.750] Sure, the machines will keep getting
[00:20:31.760] Sure, the machines will keep getting smarter and faster.
[00:20:35.029] smarter and faster.
[00:20:35.039] smarter and faster. Let them
[00:20:36.870] Let them
[00:20:36.880] Let them use the machines. You don't have to
[00:20:39.510] use the machines. You don't have to
[00:20:39.520] use the machines. You don't have to become one.
[00:20:42.549] become one.
[00:20:42.559] become one. See you next week. Thank you and I love
